

**Satans Eden no 100**  
*End-Time Scenes – Tunnels no 01*

April 16, 2023

Brian Kocourek, Pastor

This study presents **End-Time** quotes from the sermons of **William Branham** in **blue**, and **quotations** from the **Scriptures** in **red** concerning the **oncoming Judgments** in the earth and the signs of the soon coming of Christ the Second time. The reason I have put together these studies is to build your faith in God who is the great “**I Am.**”

By showing his Word is real and not just a seed, but in this hour it has become a reality, I am hoping you will be able to see all the things that the Son of Man came forth sowing in this hour are no longer seeds, but the entire Word has come to it's completed form and is indeed in the harvest time, when it is no longer in written form which is seed form but in its manifested form which is in its fulfillment or harvest ready.

Brother Branham said the following from his sermon: **(58-0406S I Know My Redeemer Lives) E-10** *Now we want first to put in our minds that nothing can destroy us until the purpose of Him Who created us has been fulfilled. There can be nothing. We were created for a purpose. This church was built here for a purpose. This foundation wasn't dug, and the cornerstone wasn't laid, and the bricks wasn't laid to make the building, and the roof and the inside was not put here.*

*Just to see if it could be done. It was put here by a purpose, or for a purpose, rather. The house you live in was not placed there by chance, or someone simply wasted time. Your house was built for a purpose, to serve a purpose.*

**E-11** *And if you drove your car here this morning, that car wasn't built. just to see if it could be built. The man did not waste the materials. She was put here for a purpose, to serve a purpose. The clothes you wear weren't made just to see if someone could make something. It was for a purpose. The food you eat did not grow on earth just to be seen growing. It was created to serve a purpose. And God didn't have to make a tree just to be a tree. He created a tree for a purpose. And God didn't make you and me just to see if He could do it.*

*He created us for a purpose. That is why there is a purpose for which we are all here. You are not here just for there to be another human being. You are here because God created you for a purpose. You are not here just to eat the food that God has grown. You're not here just to live in a house that--that man made, or wear the clothes that somebody made. You're here for a purpose. (58-0406S I Know That My Redeemer Lives)*

**E-12** *No matter how little you are, how big you are, how important you are, or how unimportant you are, you're here. to serve a purpose, just as my finger is here for a purpose. The nail is on my finger for a purpose. My eye and every part of our body is there to serve a purpose. And it wasn't put here just to see what it would look like when it was put here; but it's been put here to serve the purpose it's for.*

*It was God's plan to do so. And if we were put here for a purpose, then nothing can destroy us until God's purpose is fulfilled. Nothing can harm us until the purpose for which God has placed us here is manifested. No matter how much trouble we have, how much sorrow and pain we go through, there's a reason for it all, there's a reason for it.*

Because once you can see all the things spoken (**in seed form**) as long as thousands of years ago are now in their **manifested form** for the entire harvest of God's Word. So as long as we can see it, it is no longer in **Word or seed form** but has manifested itself to **reality form**. This then includes all that we have read about the bride as well. We are now manifested sons.

**Romans 8:18** *For I reckon that the sufferings of this present time are not worthy to be compared with the glory which shall be revealed in us. 19 For the earnest expectation of the creature waiteth for the manifestation of the sons of God. 20 For the creature was made subject to vanity, not willingly, but by reason of him who hath subjected the same in hope,*

**21** *Because the creature itself also shall be delivered from the bondage of corruption into the glorious liberty of the children of God. 22 For we know that the whole creation groaneth and travaileth in pain together until now. 23 And not only they, but ourselves also, which have the firstfruits of the Spirit, even we ourselves groan within ourselves, waiting for the adoption, to wit, the redemption of our body.*

With this intro let us look at the first of our studies, that of Tunnels. In **Malachi 4:1** we read, “For,

*behold, the day cometh, that shall burn as an oven; and all the proud, yea, and all that do wickedly, shall be stubble: and the day that cometh shall burn them up, saith the LORD of hosts, that it shall leave them neither root nor branch. 2 But unto you that fear my name shall the Sun of righteousness arise with healing in his wings; and ye shall go forth, and grow up as calves of the stall. 3 And ye shall tread down the wicked; for they shall be ashes under the soles of your feet in the day that I shall do this, saith the LORD of hosts.*

*4 Remember ye the law of Moses my servant, which I commanded unto him in Horeb for all Israel, with the statutes and judgments.5 Behold, I will send you Elijah the prophet before the coming of the great and dreadful day of the LORD: 6 And he shall turn the heart of the fathers to the children, and the heart of the children to their fathers, lest I come and smite the earth with a curse.*

Notice there is coming a time of Judgment, a burning, and the whole earth knows this time is upon us. The world governments have known this time is overdue, and so they have decided to go underground as the Scriptures predicted they would.

### **Testimony raising dead boy 53-1203**

**P:56** So they claim they got an underground air, bomb shelters, and everything, and **planes**, that can whirl or send out missiles that'll bomb every

nation and every city in the United States in **five minutes time**, with atomic bombs, and send them right out from that one place there. So brother, we're living in a terrible age. We're living in time when men ought to get right with God, and seek God, 'cause the hour's coming when destruction is just as sure to strike as I'm standing in this pulpit. We are bound to get it. How can we escape it, friends, if we're neglecting God and treating God the way we are?

*How can we do it, when the folks going down through the city, and the city officials drinking whiskey to celebrate Christmas and things like that? How can you expect God to do anything different than to destroy places? Isn't that right? The whole nation's polluted everywhere. The whole world is polluted. That's right. Only one thing left, that's the coming of Jesus Christ, the Son of God, the only hope in the world that we have. Flee to Him tonight.*

Russia now has supersonic missiles that can reach America in minutes, not hours. It is the **sarmat 2** and is dubbed the **Satan 2** missile. The Sarmat is one of six new Russian strategic weapons unveiled by Russian president [Vladimir Putin](#) on 1 March 2018.<sup>[10]</sup> The RS-28 Sarmat made its first test flight on 20 April 2022, and as of December 2021, the Russian government expected **the missile to enter service in 2022**. So we are living on borrowed time. On 16 August 2022, a state contract was signed for manufacturing of the Sarmat strategic missile system.

**Speak to this rock 53-1115 P:42**

*Let me tell you. I passed right by on the iron curtain line here recently, till they pulled the curtains down on that little old train, there's a big old Russian guard standing there with a gun on me like that, while we*

*passed by, and let us not look out of a **hundred miles of man-made tunnel**.*

*I went up to a little Finnish officer, he said, "Isn't that awful?" He could speak English. I said, "What is it?" He said, "You Americans will learn pretty soon." **Underground jet planes, planes go out from under the ground like that.** Under there was atomic bombs, everything just ready, can fly the whole world around, in just a little bit, with atomic bombs. And they can send these saucers out across the nation, drop a bomb, and twenty minute's time explode the whole earth.*

*If they wasn't afraid of that chain of relay, could stop that hydrogen bomb, they'd be doing it right now. Brother, while it's time to repent, get right with God. America... I talk to a fellow today; he said, "You mean to tell me that God would ever let America be overrun?" "Yes, sir." "Why," said, "as a respect of our forefathers."*

It is common understanding now that the real reason why the Governments throughout the world are trillions of dollars in debt is **not because of welfare programs**, or military expenses. Those are essential in any economy, but they have allowed these programs to grow exponentially to hide the **real expenditures** which is preparing for the end. Therefore in this study we first will establish the fact that many governments and rich men are building themselves underground shelters. Next we will show why we think they are doing so.

The Bible tells us in **Isaiah 2:19** *And they shall go into the holes of the rocks, and into the caves of the earth, for fear of the LORD, and for the glory of his majesty, when he ariseth to shake terribly the earth. 20 In that day a man shall cast his idols of silver, and his idols of gold, which they made each one for himself to worship, to the moles and to the bats;*

**We would see Jesus 62-0727 P:11** *And when these sights begin to come to pass, then lift up our heads. Redemption's drawing nigh. Don't look down and be weary. We're just coming to the place for the coming of our Lord Jesus. Instead of being weary, we should be the most happiest people in the whole world. And we are. Sure.*

*Why, the bombs doesn't bother us.*

*And as I said the other night, you cannot dig far enough to get away from it. Why, we wasn't made **moles**; we were made to live on top of the earth (See?), live in peace and love, **trusting God**. And they are trying to build bomb shelters and construct them with steel. Why, if you'd dig a million feet under the earth, why, you'd still be lost as soon as the bomb hit.*

*If it hit anywhere within hundred, or two hundred miles from you, why, that concussion would break every bone in your body down there. It'll blow a hole a hundred and fifty yards deep, and for a hundred and fifty miles square. And that's the one they let us know about. We don't know what they got they haven't let us know about.*

**Behold a greater than Solomon is here 62-0721 P:42** *Why, you don't have to talk about bomb*

*shelters. **People are digging under the ground like moles, trying to get away from the atomic bomb.** How you going to do it? Why, they'll blow a hole in the ground about a mile deep and for one hundred and fifty miles square. Well, if you was fifty miles below the earth, plumb below the lava, the shock of it would break every bone in your body.*

*There's no way at all of escape. Only one way. But we've got a bomb shelter. It's not made out of steel; but it's made out of feathers. Under His wings we rest. Amen. And it's not down here; it's up there. You get above it, when you soar into His bosom. Sure. That's the escape.*

**Uncertain sound 61-0429E P:23** *So there's no security. There's no way to get away from it. You*

*can't dig down, them bombs will blow a hundred and fifty feet in the ground, for a hundred miles square almost. And that's what we know about. What of those that we do not know about? Every nation has its secret things they're holding back. And just wonder what we do not know about. **Then they're talking about all this parading and***

**going into places, and finding somewhere, a bomb shelter, digging down in the ground, going to move the government under some tunnel.** *What good would it do? Well, if one of them bombs would hit, and you'd be fifteen hundred feet below it, it would break every bone in your body, the concussion would.*

So the Government has been going underground since the late 50's early 60's. It is a fact, and part of the end time prophecies as spoken of for over 2700 years via the Scriptures and over 60 years ago by William Branham our end time prophet of God.

**Queen of Sheba 60-0710 P:53** *People today trying to dig down into the earth to find a bomb shelter, **to put the government down in Kentucky somewhere in one of the caves.** Now, they've got a bomb that they can't even hide in a cave from. You go a hundred and seventy-five feet deep in the ground, or if you had it made out of solid steel five hundred feet in the ground, the*

*concussion of that would kill every... It'd break every bone in your body; certainly it would. Blow a hole in the earth hundred and fifty miles square, hundred and fifty--seventy-five feet deep in the earth. How you ever going to get away from it? Well, I'll tell you right now, the Church has a shelter. It's not made out of steel; it's made out of feathers.*

*Under His wings the Church will abide, and will be lifted up into glory away from the things of the world. Sure. Oh, if the nation would only listen and receive and rally around the gift, this would be a golden age. The gift is the Holy Spirit that God sent back. "Behold I send the promise of My Father upon you. Tarry ye in the city of Jerusalem till you're endued with power from on high."*

*Isaiah 2 (King James Version) <sup>2</sup>And it shall come to pass in the last days,... <sup>10</sup>**Enter into the rock, and hide thee in the dust**, for fear of the LORD, and for the glory of his majesty. <sup>11</sup>The lofty looks of man shall be humbled, and the haughtiness of men shall be bowed down, and the LORD alone shall be exalted in that day.*

**Paradox a 65-0117 P:38** *How the moon can, billions of miles off the earth, can still control the tide. Tell me how that in this galaxy that we live in, how could the moon have any effect upon the water on the earth? Scientifically, tell me how it's done. It could not be done, because there's no scientific way of telling it. But God set the moon to watch the sea. And when the moon begins to turn its back, when the earth turns away, here comes the tide in. But when he wakes up the next morning, looks back this a way, the tide runs back to its place again. It's a watchman."Oh," you say, "that's just on the seashore." No. **That's right up here in Arizona, plumb back over in the***

***state of Kentucky, wherever you dig a hole down in the ground far enough to find salt water, you'll find out, when that tide goes out, that salt water goes down in the pipe.***

*And when the tide comes in, it also raises, hundreds of miles from the seashore. We could preach a sermon on that. How that God, no matter, He is in glory but His orders there is just the same effect on the whole world and anybody that takes the promise. His order is given. He has laws of nature, and they will absolutely carry themselves true from Pentecost or any other time. Any time that God made the promise, He'll still stay with that promise regardless of where the people's at, how many thousands of years off. His laws ever remain the same.*

**Scriptural signs of the time 64-0410 P:36** *Why, we're talking about going to Fort Knox, and*

*moving the government down there, and **digging down into the ground**. Why, them Russian bombs goes maybe a hundred, two hundred yards down in the ground, and blow it for a hundred and fifty miles. Why, the concussion would go plumb into the lava. You're not safe nowhere on this earth. There's only one safety; that's in the arms of Jesus Christ. He's our retreat. But what if we denied, as Americans, and we all trusted in the gift that God give*

*us, the Holy Ghost, in the last days? Why, every nation would fear us like they did in the days of Solomon.*

*God gave Solomon a gift to know all. **The whole church, everybody, believed it.** That was a millennium for the Jews; that was the Old Testament millennium in the days of Solomon, a foreshadow of the millennium to come. The golden age of the Jews...Notice, nobody started war*

with them. They feared them because they knowed their God was real, because they had Him in their presence. And the people was all one heart and one accord. Why, the fame went everywhere. Everywhere, and you'd hear, "Oh, what a great thing, great God Israel has, a living God." And his fame went way down into Sheba. Measure it on the map and see how far it is.

**Greater than Solomon is here 62-0628 P:62 We would have a bomb shelter all right. It wouldn't be dug down in the ground.** Them bombs will blow a hole in the ground a hundred and fifty yards in, or two hundred yards, or something like that, deep in the ground, and spread out for a hundred and fifty miles. Why, if you were a thousand... If you was down into the lava, it would break every bone in your body. You can't dig down; you have to dig up to get out of the way of it. **We have a shelter.**

**And it's made out of feathers: under His wings** (Amen.), carried away. Oh, I'm so glad for that shelter (Yes, sir.) under His wings. Why, the dust won't be settled till we'll be in glory (That's right.), safely under His wings. Oh, how that great wings of an eagle will pack us out of here one of these days.

**Why 62-0622E P:43** The best way that God could ever fortify His army was to fortify them with the best. If our nation... We've got spies in England; England's got spies here, yet we're friendly. We've got spies all over the world, and the world's got spies in here.

**They're watching, see what kind of new missile, what kind of a new thing...** Then they go back to their nation, find something to counteract that while they dress their men, get things ready for that kind of a war. It's always going on. **There's a warfare between the devil and God: always has been.** And every year they're finding something new. The old airplanes they used back there, the old P-38's, and whatever they was, they scrapped them. They got jets now.

The old **Springfield's** no good at all. They got a **missile rifle** now. The old block-buster is so far behind. Why, even the old trains, the old steam engines used to pull the stuff up and down the tracks: obsolete. Sure. They got something new. They're always searching: something new, something new. **Now, they're trying to dig down in the ground, find some way to escape the atomic bomb:** something new, something new.

**Letting off the pressure 62-0609E P:23** I'm so glad today that there is a place of refuge, where all this rush, and hustle, and bustle, we can let off the pressure, and go in, get out of it all. **People are afraid of atomic bombs. They're afraid of fallout.** When I was nearing your city down here, down here in this state, great big signs up, "Warning, fallout." Everybody's scared, **trying to dig down in the ground to get away from it.**

*You know, the only farther you have to go down is just to your knees. You're sure to get away from it, if you just drop that far. You don't have to be **a mole**, go beneath the ground. Just go to your knees. That's all the farther you have to go.*

**Jesus Christ the same 61-0205E P:32** *In the day when atomic missiles... Russians got sputniks in the air, and all these... Why, there's no rest nowhere--only in Christ. There's not one thing... Our nation, we cannot build our hopes upon it, because any little nation could throw a bomb over here and blow us off the earth. **Warfare's about over**. You just need one man to pull a lever. It'll all go to pieces. ...*

***They're trying to build a hole down in the ground, crawl into it.*** *They got a bomb that'll blow a hole in the ground five hundred foot deep, and for almost a **hundred miles square**. Well, if you was ten thousand feet below the earth, it'd break every bone in your body, the concussion of it.*

**Have faith in God 58-0510 P:8** *God's anger is kindled against the nation. And you're going to receive punishment and judgment. **Write it in the fly leaf of your Bible and say that, "Brother Branham said so." If it doesn't come to pass, I'm a false prophet, for I have THUS SAITH THE LORD**. So you escaped that wrath. There's only one way; they're... I noticed on your streets, and around in here, **you got the bomb shelters**. Won't do you one speck of good.*

*What would happen that a bomb, that can blow a hole in the ground a hundred and seventy-five feet deep, for three miles square. What if you were five hundred foot down in the ground, it would be such a concussion, there wouldn't be a bone left in you.*

## Russia Unveils RS-28 Sarmat 'Satan 2' Nuclear Missile

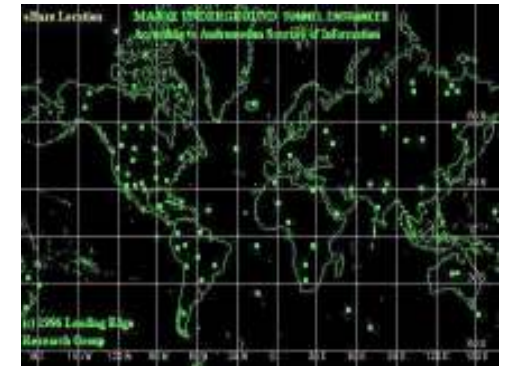

BY DAVID REID, CNBC AND ALEXANDER SMITH

Russia has declassified the first image of its new thermonuclear armed intercontinental ballistic missile. The RS-28 Sarmat could carry a payload capable of **wiping out a landmass "the size of Texas or France,"** according to a report by the Kremlin-aligned Sputnik news agency.

An image of an RS-28 Sarmat missile. Makeyev Rocket Design Bureau Known colloquially as "**Satan 2**," the missile will replace the RS-36M — which was dubbed "Satan" by NATO after entering service in the 1970s. Robert Kelley, a former nuclear weapons expert at the U.S. Department of Energy, said the new missile was likely an upgrade of electronics — rather than explosive power or range.

"The range of the missiles will be about the same, the explosive destructive power will be about the same [but] the reliability, flexibility and confidence [in the warheads' ability to hit their targets] will go way up," said Kelley, who is now a distinguished associate fellow at the Stockholm International Peace Research Institute. He added: "**Your iPhone can do thousands of more things today than in the 1970s when these systems were first deployed.** Many of the clunky electronic circuits of that era no longer exist and no one knows how to make them anymore."

What would the US Air Force be doing digging tunnels deep underground. **Isaiah 2:12** For the

*day of the LORD of hosts shall be upon every one that is proud and lofty, and upon every one that is lifted up; and he shall be brought low: <sup>17</sup>And the loftiness of man shall be bowed down, and the haughtiness of men shall be made low: and the LORD alone shall be exalted in that day.*

*<sup>18</sup>And the idols he shall utterly abolish". <sup>19</sup>And **they shall go into the holes of the rocks, and into the caves of the earth,** for fear of the*

*LORD, and for the glory of his majesty, when he ariseth to shake terribly the earth. <sup>20</sup>In that day a man shall cast his idols of silver, and his idols of gold, which they made each one for himself to worship, to **the moles***

The mole is those dig tunnels) **and to the bats;** (those who dwell in caves and caverns)

In other words the rich will pay out their wealth to gain entrance to the tunnels and underground caves and caverns. And that is exactly what the next verse tells us. **<sup>21</sup>To go into the clefts of the rocks, and into the**

**tops of the ragged rocks,** for fear of the LORD, and for the glory of his majesty, when **he ariseth to shake terribly the earth.** <sup>22</sup>Cease ye from man, whose breath

*is in his nostrils: for wherein is he to be accounted of ?*

**Uncertain sound 61-0429E P:23** So there's no security. There's no way to get away from it. You can't dig down, **them bombs will blow a hundred and fifty feet in the ground, for a hundred**

**miles square almost.** And that's what we know about. **What of those that we do not know about?** Every nation has its secret things they're holding back. And just wonder what we do not know about. Then they're talking about all this parading and **going into places, and finding somewhere, a bomb shelter, digging down in the ground, going to move the government under some tunnel.** What good would it do? Well, if one of them bombs would hit, and you'd be fifteen hundred feet below it, it would break every bone in your body, the concussion would.

### **SUB TERRENES** Nuclear powered tunneling machines.

**Hollow earth and tunnel system** Since the 1950's, the US Government has had nuclear powered tunneling machines. They were patented in the 1970's (US Patents #3,693,731). As it burrows through the rock hundreds of feet below the surface, **the Subterrene heats whatever stone it encounters into molten rock, or magma, which cools after the Sub terrene has moved on.** The result is a **tunnel with a smooth, glazed lining, somewhat like black glass**, which apparently is also strong enough that it doesn't even require reinforcing of the walls. It was featured in OMNI magazine, Sept 1983, p80.

So, with the picture here, and the US Patent Office patent, I think that adds up to incontrovertible evidence that these things are real. And further to that, it is highly likely that the claims of underground bases and tunnels across America (if not the world) are indeed true. **Here's a** <= **picture of a sub terrene photographed in Denmark.** It appears the tunnel now exists under the Atlantic Ocean

Robert Salter, of the RAND Corporation, suggested building a subway from New York to Los Angeles magnetically levitated above the tracks. The trains would zip through the evacuated tunnels at speeds faster than an SST, crossing the country in less than an hour. The federal government's Los Alamos Scientific Laboratory, in

New Mexico, however, Subterrene, the Los Alamos vicious giant mole. Subterrene is that, as it burrows hundreds of feet below whatever stone it encounters after the Subterrene has moved on. The result is a tunnel with a smooth, glazed lining. For power, the Subterrene can use a built-in miniature nuclear engine or even a conventional power plant. ***Submarines hiding out in underground bays***

may have an answer to this challenge. Called the Alamos machine looks like a The beauty of the Subterrene burrows through the rock the surface, it heats encounters into molten rock, or magma, which cools

after the Subterrene has moved on. The result is a tunnel with a smooth, glazed lining. For power, the Subterrene can use a built-in miniature nuclear engine or even a conventional power plant.

### Nuclear Subterrenes

*Could government mole machines be building a secret worldwide tunnel system?*

UNDERGROUND BASES AND TUNNELS by Richard Sauder, Ph.D.,  
Adventures Unlimited Press

### Nuclear Subterrenes

Sub-terrenes are vehicles that travel much like a submarine, either by mechanical drilling or by melting their way forward. They first appeared in science fiction as mechanical drillers, with real-world thermal designs following in the second half of the 20<sup>th</sup> century.

The nuclear sub terrene was designed at the Los Alamos National Laboratory, in New Mexico. **A number of patents were filed by scientists at Los Alamos. Nuclear sub terrenes work by melting their way through the rock and soil, actually vitrifying it as they go, and leaving a neat, solidly glass-lined tunnel behind them.** The heat is supplied by a compact nuclear reactor that circulates liquid lithium from the reactor core to the tunnel face, where it melts the rock.

nuclear reactor that circulates liquid lithium from the reactor core to the tunnel face, where it melts the rock.

In the process of melting the rock the lithium loses some of its heat. It is then circulated back along the exterior of the tunneling machine to

help cool the vitrified rock as the tunneling machine forces its way forward. The cooled lithium then circulates back to the reactor where the whole cycle starts over. In this way the nuclear sub-terrene slices through the rock like a nuclear powered, 2,000 degree Fahrenheit (Celcius?) - earthworm, boring its way deep underground.

The United States Atomic Energy Commission and the United States Energy Research and Development Administration took out Patents in the 1970s for nuclear sub terrenes. The first patent, in 1972 went to the U.S. Atomic Energy Commission.

The nuclear sub terrene has an advantage over mechanical TBMs in that it produces no muck that must be disposed of by conveyors, trains, trucks, etc. This greatly simplifies tunneling. Nuclear sub terrenes and the tunnels they make, could be very hard to detect, for the simple reason that there would not be the tell-tale muck piles or tailings dumps that are associated with the conventional tunneling activities.

The 1972 patent makes this clear. It states: *".. (Debris may be disposed of as melted rock both as a lining for the hole and as a dispersal in cracks produced in the surrounding rock. The rock-melting drill is of a shape and is propelled under sufficient pressure to produce and extend cracks in solid rock radially around the bore by means of hydrostatic pressure developed in the molten rock ahead of the advancing rock drill penetrator. All melt not used in glass-lining the bore is forced into the cracks where it freezes and remains such a (vitreous) lining eliminates, in most cases, the expensive and cumbersome problem of debris elimination and at the same time achieves the advantage of a casing type of bore hole liner."*

*"Speeds as high as 14,000 mph have been examined in studies by the Rand corporation (in an example case of a direct link between Los Angeles and New York requiring 21 minute transit time.)"*

*".. (Debris may be disposed of as melted rock both as a lining for the hole and as a dispersal in cracks produced in the surrounding rock. The rock-melting drill is of a shape and is propelled under sufficient pressure to produce and extend cracks in solid rock radially around the bore by means of hydrostatic pressure developed in the molten rock ahead of the advancing rock drill penetrator. All melt not used in glass-lining the bore is forced into the cracks where it freezes and remains such a (vitreous) lining eliminates, in most cases, the*

*expensive and cumbersome problem of debris elimination and at the same time achieves the advantage of a casing type of bore hole liner."*  
*(US Patent No. 3,693,731, 26 Sep 1972)*

**Tunneling machine that creates no muck, and leaves a smooth, vitreous (glassy) tunnel lining behind.** Another patent three years later was for: A tunneling machine for producing large

tunnels in soft rock or wet, clayish, unconsolidated or boulder earth by simultaneously detaching the tunnel core by thermal melting boundary kerfs into the tunnel face and forming a supportive excavation wall liner by deflecting the molten materials against the excavation walls to provide, when solidified, a continuous wall supporting liner, and detaching the tunnel face circumscribed by the kerf with powered mechanical earth detachment means and in which the heat required for melting the kerf and liner material is provided by a compact nuclear reactor.

This 1975 patent further specifies that the machine is intended to excavate tunnels up to 12 meters in diameter or more. This means tunnels of 40 ft. or more in diameter. The kerf is the outside boundary of the tunnel wall that a boring machine gouges out as it bores through the ground or rock. So, in ordinary English, this machine will melt a circular boundary into the tunnel face. The melted rock will be forced to the outside of the tunnel by the tunnel machine, where it will form a hard, glassy tunnel lining (see the appropriate detail in the patent itself, as shown in Illustration 41). At the same time, mechanical tunnel boring equipment will grind up the rock and soil detached by the melted kerf and pass it to the rear of the machine for disposal by conveyor,

slurry pipeline, etc. And yet a third patent was issued to the United States Energy Research and Development Administration just 21 days later, on 27 May 1975 for a machine remarkably similar to the machine patented on 6 May 1975. The abstract describes:

A tunneling machine for producing large tunnels in rock by progressive detachment of the tunnel core by thermal melting a boundary kerf into the tunnel face and simultaneously forming an initial tunnel wall support by

deflecting the molten materials against the tunnel walls to provide, when solidified, a continuous liner; and fragmenting the tunnel core circumscribed by the kerf by thermal stress fracturing and in which the heat required for such operations is supplied by a compact nuclear reactor. This machine would also be capable of making a **glass-lined tunnel of 40 ft. in diameter or more.**

Perhaps some of my readers have heard the same rumors that I have heard swirling in the literature and stories of deep, secret, glass-walled tunnels excavated by laser powered tunneling machines. I do not know if these stories are true. If they are, however, it may be that the glass-walled tunnels are made by the nuclear subterrenes described in these patents. The careful reader will note that all of these patents were obtained by agencies of the United States government. Further, all but one of the inventors are from Los Alamos, New Mexico. Of course, Los Alamos National Lab is itself the subject of considerable rumors about underground tunnels and chambers, *(It may also be that the some of the tunnels are made by these machines, while other subterranean tunnel systems were made by other civilizations, both ancient and modern. --*

A 1973 Los Alamos study entitled "Systems and Cost Analysis for a Nuclear Subterrene Tunneling Machine: A Preliminary Study", concluded that nuclear subterrene tunneling machines (NSTMs) would be very cost

effective, compared to conventional TBMs. It stated: *"Tunneling costs for NSTMs are very close to those for TBMs, if operating conditions for TBMs are favorable. However, for variable formations and unfavorable conditions such as soft, wet, bouldery ground or*

*very hard rock, the NSTMs are far more effective. Estimates of cost and percentage use of NSTMs to satisfy U.S. transportation tunnel demands indicate a potential cost savings of 850 million dollars (1969 dollars) throughout 1990. An estimated NSTM prototype demonstration cost of \$100 million over an eight-year period results in a favorable benefit-to-cost ratio of 8.5." Was the 1973 feasibility study only idle speculation, and is the astonishingly similar patent two years later only a wild coincidence? As many a frustrated inventor will tell you, the U.S. Patent Office only issues the paperwork when it's satisfied that the thing in question actually works!*

In 1975 the National Science Foundation commissioned another cost analysis of the nuclear subterrene. Comparing the cost of using NSTMs to the cost of mechanical TBMs, A.A. Mathews determined: *"Savings of 12 percent for the 4.73 meter (15.5 ft.) tunnel and 6 percent for the 6.25 meter (20.5 foot) tunnel were found to be possible using the NSTM as compared to current methods. A penalty of 30 percent was found for the 3.05 meter (10 foot) tunnel using the NSTM. The cost advantage for the NSTM results from the combination of: (a) a capital rather than labor intensive system, (Reducing the number of personnel required is especially important in black budget projects for security reasons. --SW) and (b) formation of both initial support and final lining in conjunction with the excavation process. (Leaving a glass-like lining, which could be \*air-tight\*, allowing the use of high-speed, superconducting mag-lev trains operated in a virtual vacuum in a tunnel deep underground. --SW)*

The problem with all this expenditures, is that the elites think they will secure safety, but the Scriptures tells us differently. In **Isaiah 24** we are told that **they that go down, will in fact be trapped inside and the vaults and u**

**Isaiah 24:1** Behold, **the LORD maketh the earth empty**, (depopulated) **and maketh it waste, and turneth it upside down**, (global shift) **and scattereth abroad the inhabitants thereof.** 2 **And it shall be, as with the people, so with the priest; as with the servant, so with his master; as with the maid, so with her mistress; as with the buyer, so with the seller; as with the lender, so with the borrower; as with the taker of usury, so with the giver of usury to him.** (in other words, these judgments will be no respecter of persons.) 3 **The land shall be utterly emptied**, (depopulated) **and utterly spoiled: for the LORD hath spoken this word.** 4 **The earth mourneth and fadeth away, the world languisheth and (underground hideaways will become their graves).** fadeth away, the haughty people of the earth do languish. 5 **The earth also is defiled under the inhabitants thereof; because they have transgressed the laws**, (changed God given laws like Marriage between one man and one woman, and the laws of decency by making LGBT bathroom politics) **changed the ordinance, broken the everlasting covenant.** 6 **Therefore hath the curse devoured the earth**, (read Deuteronomy 28 all to understand the curses that have begun and will continue until the people on earth are no more.) **and they that dwell therein are desolate: therefore the inhabitants of the earth are burned, and few men left.** 7 **The new wine mourneth, the vine languisheth, all the merryhearted do sigh.** 8 **The mirth of tabrets ceaseth, the noise of them that rejoice endeth, the joy of the harp ceaseth.** 9 **They shall not drink wine with a song; strong drink shall be bitter to them that drink it.** 10 **The city of confusion is broken down: every house is shut up**, (boarded up) **that no man may come in.** 11 **There is a crying for wine in the**

streets; **all joy is darkened**, the mirth of the land is gone. 12 In the city is left desolation, and the gate is smitten with destruction. 13 When thus it shall be in the midst of the land among the people, **there shall be as the shaking of an olive tree**, and as the gleaning grapes when the vintage is done. 14 They shall lift up their voice, they shall sing for the majesty of the LORD, they shall cry aloud from the sea. (as they are swept into the seas) 15 Wherefore glorify ye the LORD in the fires, even the name of the LORD God of Israel in the isles of the sea. 16 From the uttermost part of the earth have we heard songs, even glory to the righteous. But I said, My leanness, my leanness, woe unto me! the treacherous dealers have dealt treacherously; yea, **the treacherous dealers have dealt very treacherously**. (they shall be traitors) 17 **Fear, and the pit, and the snare, are upon thee**, O inhabitant of the earth. 18 And it shall come to pass, that **he who fleeth from the noise of the fear shall fall into the pit; and he that cometh up out of the midst of the pit shall be taken in the snare: for the windows from on high are open, and the foundations of the earth do shake**. 19 **The earth is utterly broken down, the earth is clean dissolved, the earth is moved exceedingly**. 20 **The earth shall reel to and fro like a drunkard, and shall be removed like a cottage;**(like a small house in a great wind) and the transgression thereof shall be heavy upon it; and it shall fall, and not rise again. 21 And it shall come to pass in that day, that **the LORD shall punish the host of the high ones that are on high, and the kings of the earth upon the earth**. 22 **And they shall be gathered together, as prisoners are gathered in the pit,** (in the underground bunkers) **and shall be shut up in the prison, and after many days shall they be visited**. (after many days they shall have their visitation, death) 23 Then **the moon shall be confounded, (blushing red) and the sun**

**ashamed**, (dark like sack cloth) *when the LORD of hosts shall reign in mount Zion, and in Jerusalem, and before his ancients gloriously.*

So we see that the trillions of dollars of preparations that the elites have been making, stealing funds from the tax coffers all over the world to create their inter connected underground bunker cities, are doing so in vain. These underground cities will become their prisons and finally their graves.

Let us pray
