

Satan's Eden no 106
Methane Gas & Earth Burning
May 21, 2023
Brian Kocourek, Pastor

Paradox - 64-0206B 100. *We see the world, geographically. We see the signs, earthquakes in divers places, nations against nations. We see all the things that's predicted. We see fearful sights in the skies, man's heart failing; flying saucers, and so forth, that they can't explain, investigating judgments coming to the earth. We see the atomic bombs hanging out yonder everywhere, and the great missiles can carry total destruction in a hour. **We see the gases hanging above us there, that would rain the fires down out of the heaven and destroy the earth.** But we see Jesus also, Who made the promise. And as was said, "This same Jesus, that was taken up from you, will come again in like manner as you've seen Him go into heaven." We're watching for that glad day to come.*

WORLD OCEAN REVIEW *Climate change impacts on methane hydrates* **Huge amounts of methane are stored around the world in the sea floor in the form of solid methane hydrates.** These hydrates represent a large

energy reserve for humanity. Climate warming, however, could cause the hydrates to destabilize. The methane, a potent greenhouse gas, would escape unused into the atmosphere and could even accelerate climate change.

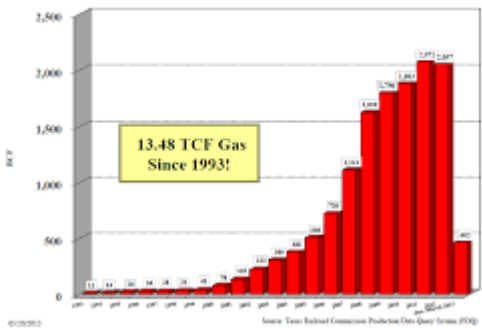

Future home - 64-0802 86. *Notice here, Peter*

said, "And will melt with fervent heat and the works therein burn up," not the planet, the works therein: the works of man. All their politicians, and their schemes, and all their denominations and manmade schemes will all go with it when it burns." And heavens will pass away with a great noise."

Did you notice here? "Heavens will pass away with a great noise." Listen, **the whole earth will be on fire and will ignite the gases that's in the earth and explode it.** It's exactly. 87. Talk... The Bible said here--Peter said, "And the heavens will pass away and earth with a great noise." **Such an explosion will rock it** (Oh, my.), 'cause it's got to kill every disease, every thistle, every thorn, everything there is to be done, **the fire will burn it up.**

Newark, East (Barnett Shale)
Total Natural Gas Production
1993 through March 2013

And remember, it's not all together just a literal fire; it's also a holy Fire (See?), that will take away Satan and all of his, all of the devils. Both heaven and earth (Amen.) will pass away, killing all the germs, all the insects, all natural life on it and around it, **even the H2O, the water, will explode.** Think of it. Talk about a noise... You think that little

noise out here in Tucson was something, when He opened the six seals, that shook the country around about and caused the talk, wait till this earth receives her baptism!

Researchers say Arctic Ocean leaking methane at an alarming rate By WESTON MORROW Fairbanks Daily News-Miner November 30, 2013

FAIRBANKS -- Ounce for ounce, methane has an effect on global warming more than 30 times more potent than carbon dioxide, and it's leaking from the Arctic Ocean at an alarming rate, according to new research by scientists at the University of Alaska Fairbanks. Their article, which appeared last week in the peer-reviewed journal Nature Geo Science, states that the Arctic

Ocean is releasing methane at a rate more than twice scientific models had previously anticipated.

Future home 64-0802 P:85 Notice, in Peter, in the 2nd chapter of Peter here--3rd chapter, rather, he uses the word "world" as a Greek word, "Kosmos," which means "the world order." **The earth shall pass away, melt the elements with fervent**

heat. See? Doesn't mean that the earth, the planet's going to pass away, but the world, Kosmos, the politics, the sinners, the system, sin, disease, germs, everything that's wrong will pass away. Everything that...Once... God once shook the heavens, but this time He said **He will shake the earth: heavens and earth. He shook the earth, rather, then; this time He will shake the heavens.** See? For we receive a Kingdom that cannot be moved, the eternal Kingdom.

Future Home - 64-0802 88. You know, when a man receives the baptism of Fire there's a lot of noise around there. They think that's a shame to hear people scream and shout like that. Just wait till this earth gets her baptism. Yeah, it'll explain--**explode it, the H₂O, the water; for the Bible said here in Revelations 21, "and there was no more sea."**

Explode it. This will change the whole surface of the entire earth. She'll burst and blow to pieces. All the outside, the crust and for hundreds of feet below it, it'll just simply be completely demolished. The atmospheres, the gases that's in the earth now, where they're finding these missiles that can't get through it--a great sphere up in there (way up in some kind of a sphere) that--**there's all kinds of gases, they say, and that'll burst.** The holy wrath of God will come upon it, and will cleanse it, will change the entire surface.

This picture is of burning snow, many have tried it this past winter and the snow actually burns. I know people personally who have tried this and the snow balls do burn.

Proving His Word - 64-0816 49. But in the face of all the scientific, unbelieving age, God proved His Word of promise true, by sending them the flood. Now, remember, in the days of Noah it had never rained upon the earth. God had a mist to come up out of the earth and to irrigate, but it never rained. But Noah said, "It's going to rain." Now, that was... They could take an instrument and shoot up into the skies, and say there is no moisture up there. "There's no rain there. We can prove there's no rain there."

Regardless of what science said, God said it was going to rain, so that does it. Now, what did God do? To my opinion, when some of them shook the world a little and threw it out of its cater, then it threw the back this a way, the heat of the earth into the cold, only brought the moisture. And the

world was covered over, first, and the atmospheres up there, the humidity in the air, just come together in a form of cloud and let it down, that was all. Now, we know today, that **there's fire up there, 'cause the gases are in the earth.**

And the Bible said, "**The heavens and earth will pass**

away with a great noise, and the earth shall melt with fervent heat." So we know that it's up there, so just the same as it was in the days of Noah.

Scientists have been documenting for some years now the Methane gases coming up through the waters, and they have taken movies of the bubbles being lit with a torch and igniting. With the warming of the two poles we are seeing much more methane gases which had been stored there by the frozen conditions of the poles, actually have begun to melt down due to the general warming of the poles and in the process the methane gases are being released at an incredible rate into the atmosphere. They are now photographing the water being able to be ignited as the above photo shows.

How safe is your drinking water if you can burn it? How safe is the lakes and rivers if they can be set on fire? How late is it before we go home. We had better be praying.

SOLAR FLARES & EMP DANGERS

Rapture the 65-1204 P:36 Isn't it a strange thing that not long ago on the east coast, **the big blackout.** They couldn't understand it. **Texas blacked out last week.**

They can't understand it. **Don't you realize that that's a**

sign? Don't you know the nations are breaking? Israel's in her homeland, and these signs are indicating that we are at the end.

The same time it's blacking out, don't you know that's a sign that the prophet said that--"But there shall be Light about the evening time," that there will be a Light come forth in the evening time when the blackouts and things are going the way they are now. Look at just how it blacked out.

Forsaking all 62-0123 P:67 Here on earth, He had no shelter,

they said, no place, no house, nothing, belonged to Him. But you know what? He became a Shelter for every one of us. God made Him a Shelter for the whole human race. He had no shelter of His own, but **He is our Shelter**. They've been talking so much about fallout shelters. Oh, my. We got one. That's right. Fallout shelters, **go in some hole in the ground**. And they tell me those bombs will hit, and

blast a hole in the ground for a hundred and fifty feet deep, for a hundred and something miles square. Why, it would break every bone in you if you was a half a mile deep in the ground. Sure it would. Anywhere. **But we got a Shelter. Christ is our Shelter.**

Behold a greater than Solomon is here 62-0721 P:42

Why, you don't have to talk about bomb shelters. **People are digging under the ground like moles**, trying to get away from the atomic bomb. How you going to do it? Why, **they'll blow a hole in the ground about a mile deep and for one hundred and fifty miles square**. Well, **if you was fifty miles below the earth, plumb below the lava, the shock of it would break every bone in your body. There's no way at all of escape. Only one way.** But we've got a bomb shelter. It's not made out of steel; but **it's made out of feathers. Under His wings we rest.** Amen. And it's not down here; it's up there. You get above it, when you sail into the-- soar into His bosom. Sure. That's the escape.

POLITICO By JUANA SUMMERS | 6/19/13 5:08 AM EDT

"As Washington decides what to do about potential nuclear threats from North Korea and Iran, Newt Gingrich returned to Capitol Hill on Tuesday to point out what he called an equally grave danger: an electromagnetic pulse. Addressing members of the Electromagnetic Pulse Caucus, the former Republican House speaker from Georgia said the fallout from a high-altitude nuclear blast known as an EMP — which could **damage or destroy American power grids and electronics** — **could deal society a deathblow. This could be the kind of catastrophe that ends civilization** — and **that's not an exaggeration,**" Gingrich said at an event

led by Rep. Trent Franks (R-Ariz.), who founded the caucus."

ANIMALS, BIRDS, FISH - SUDDEN DEATH

Hosea 4:1 Listen to what the Eternal says, you people of Israel! Eternal One: I am bringing charges against everyone who lives in your land because there's no truth and no faithfulness and no knowledge of God in the land. **2** There is only cursing and **lying** and **killing** and **stealing** and **adultery**, so that one act of bloodshed follows right after another. **3** It's because you're breaking My most basic directives that **the land will mourn with grief and even dry up** like a desert plant. Those dwelling in it waste away, **As the wild animals, the flying birds, and the swimming fish are all dying.**

60-2 WISDOM VERSUS FAITH 62-040 "The same thing they're doing right now.

*Their atomic bombs and things that these smart scientists and things will destroy the whole race. They got fallout right now that's just--you just burn your eyes out, give you cancer, everything. They turned enough of it loose in the ocean; they can't even find it no more. **When it gets loose it'll destroy the whole world**, they say. People will burn up in their own flesh. No wonder the Bible said, "And the fowls of the air will eat upon the captain's flesh," and so forth--rot from fallout and everything else."*

Greater than Solomon is here - 57-0228 p.39 and right down here in the final windup of it all when every nation is sitting at needles' point, when missiles are in the skies, tidal waves are hitting the banks. **More people dying with heart trouble, especially men, than ever was known.** The Bible said, "**Man's hearts failing...**" **Fear, perplexed of time, distress between the nations, and all these great signs that Jesus spoke of is here**, and He's poured out His Holy Spirit and set signs and wonders and gifts into the church; and the outside world's standing on a ring, mocking and making fun of it. What will be their final doom? Religious men...

Let us pray.
