

Unveiling of God no 145

Election year diseases

March 1, 2020

Brian Kocourek, Pastor

Lately in the news we see the focus of talk has gone from impeachment to CORID-19 which is talk about the **Coronavirus Pandemic**.

Let me assure you as the Scripture says, “**and this too shall pass**”.

Brother Branham warned us that at the end time governments would manufacture diseases in their laboratories but he also assured us that those viruses are not allowed to touch those with the Holy Ghost.

God's provided way of healing 54-0719A P:42 *What is a cancer? What is a tumor, what is a disease? We'll deal on that for the next five minutes now. What is a cancer? What caused that thing? Let's take a cancer, or anything you wish to take: **tubercular, pneumonia**, whatever you wish to, **any disease**. **Diseases are germs**. Let me pass something, here quickly, as our time's a going. Listen, **did you know the Bible predicts that in the last days, that they'll be a germ warfare?** That **diseases will break out upon the people, and will fall on everyone without the baptism of the Holy Spirit? But with the Angel or who had charge over these plagues was given orders to touch no one on whom the mark was**. Why, how much, kind of teachers have we got to be, brethren, to get the church in order to be in that condition? **Immune**. My arms are sore now, from where the doctors has punched needles to try to inoculate me from yellow fever and so forth. I told them I didn't need it. But they wouldn't listen to me. But I'll tell you what God's going to do. **God's got a serum, and it's called the Holy Ghost**. And **when that serum goes in, it'll inoculate you**. Hallelujah. **In the last days...***

And also from his sermon **God's provided way fellowship 60-0709 P:101** *How we thank Thee, that in this great hour, that when all hopes of mortal life has finished... **Atomic bombs are laying in hangers, hydrogen bombs, sickness and diseases, germ warfare...** O God, and everything the way it is, knowing that the Bible said that **man would actually rot in their flesh...** But **that Angel was given commission, "Don't you touch any of those! Don't you come near those who has the wine and the oil. Don't touch those who has the seal of God upon their forehead."** And **we realize that the baptism of the Holy Ghost is the seal of God**. For it is written in **Ephesians 4:30 "Grieve not the holy Spirit of God whereby you're sealed until the day of your redemption."** **Lord God, seal this church tonight**. Those who are wanting the seal of the Holy Spirit, **kiss away every fear, Lord, and seal them with Thy Seal of the Spirit in their hearts, that they'll come forth as newborn babes, crying, "Abba, Father"**. Grant it, Lord. I commit them to Thee in the Name of Jesus, Thy Son.*

In **Psalms 103:3**, we read, "**I'm the Lord Who healeth all your diseases**." And Brother Branham said “**if there's any other healing, God told something wrong**.”

Ok, so we are warned that at *the end time* governments will be developing *germ warfare* that will be released upon the people at the end time, and we have seen signs of this it seems every few years, or shall we say around every election cycle.

So you should not be fearful when you see the headlines proclaiming the next pandemic. It's been declared by God that it will come, and when it does come to pass we should be aware that this is nothing outside the plan of God. And remember God promise that it shall not come near you, and he also promised in **Romans 8:28** that "*all things will work together for your good.*" And either you have trust in God or you don't.

Now, remember God has a plan for you and a plan for the world. Don't ever forget that.

God told us in **Jeremiah 29:11** *For I know the thoughts that I think toward you, saith the LORD, thoughts of peace, and not of evil, to give you an expected end.*

And what is our expected end? To be changed in the moment in the twinkling of an eye.

1 Corinthians 15:52 *In a moment, in the twinkling of an eye, at the last trump: for the trumpet shall sound, and the dead shall be raised incorruptible, and we shall be changed.*

Psalms 72:7 *In his days shall the righteous flourish; and abundance of peace so long as the moon endureth.*

Psalms 37:11 *But the meek shall inherit the earth; and shall delight themselves in the abundance of peace.*

So we are promised that God's plan for us is peace. But that is not his plan for all others.

Isaiah 59:8 *The way of peace they know not; and there is no judgment in their goings: they have made them crooked paths: **whosoever goeth therein shall not know peace.***

Whosoever shall go along with their crooked paths, shall not know peace.

Now, we have been warned by Gods prophet to turn off the tv sets, because we are allowing Satan to come in and control our minds.

From his sermon **We would see Jesus 62-0727 P:35** brother Branham said, "*It's too bad that the things of the world has so captured the church in these days. And Satan had a rude way of doing it, to bring in the televisions right into the homes, and things, and corrupting the minds of the people, and till today that a great percent of the church that call themselves Christians will stay home from prayer meeting on a Wednesday night to get to see some favorite program of somebody from Hollywood, or somewhere, that oughtn't to even be put out on the screen, maybe living with three or four husbands, or wives, and carrying on, and living all kinds of lives, go out on drunk parties, and smoking, and lying, and everything that can be done that's wrong. And our churches are fashioning theirself... Even our dress in this day becomes after Hollywood. **What a pity it's got to be, that our minds think, can't stay pure and holy with Christ. It's done something to the church. It's crippled it, and it's done a horrible thing.** All of our papers, and everything, just seems to be corrupted. But listen, friends, it's in that hour of corruption, and that time of corruption that God draws Himself a Bride that comes out of that corruption. That's*

what He's looking for, to get a church that's called by His Name, somebody that looks for a life that has no end.

Notice how brother Branham talks about television and how it corrupts the mind. Well, listen, you can listen to a lie over and over again and you will end up thinking it is the truth.

Brother Branham said in his sermon **Lean not unto thy own understanding 65-0120 P:46** *You know, **the Bible said you can believe a lie and be damned by it.** See? That's exactly the truth. They form, no matter what the Word of God says, **they lean to their own understanding.** They lean on it; they believe it; they think it's the Truth. **You can keep believing a lie over and over and over till it's the truth to you.** That's right. **But how do we know whether it's Truth or not? God proved it's Truth, 'cause it's in His Word and He a-vindicates It. He does His own interpretation of It.** How do they do, get to this? **They do it by their culture, their education, of their understandings of their--the degree of doctor's degree, and so forth, that they have come from some certain seminary and learned these things.***

So you can repeat a lie over and over enough times until it becomes truth to you. And that is how the Satan through the media is reshaping the minds of the people today.

I want to play something for you to see. It is how that the media is being controlled by only six companies, and so instead of getting the real news, they are just repeating propaganda they are told to say, and people go from one channel to another and then they think, “*why if they are all saying the same thing, it must be true.*” And the people no longer think for themselves, but are spoon fed what to think, and it’s all a lie.

The Bible said “*they would turn the truth into a lie, ... and they would be damned by it*”.

So listen to this short video showing you that what you hear on the news is not news but actually propaganda. The CIA has for years gotten control of the news casters and they get their 4 am scripted talking points and they work from them.

[EXAMPLE ONE](#)

[EXAMPLE TWO](#)

And watching the news today can be “*extremely dangerous to your*” mental health and spiritual well being.

Now, let’s look into the so called pandemics we have seen through the past 16 years, because it seems that we have a pandemic strike the world every election cycle.

In **2004 a Presidential Election** year we had SARS In the next Presidential Election year of **2008** we had the Avian Flu pandemic,

Again in the **2010** midterm election year we dealt with the Swine Flu H1N1. Then in the **Presidential Election** year of **2012** we were hit with **MERS**, Oh that one was scary. It was a highly contagious disease they said.

Then in the midterm election year of **2014** we saw **EBOLA** come out of now where to scare the population, giving President Obama some good photo ops.

And then in the next presidential election year of **2016** it was the **ZIKA** virus that was going to kill all the children in their mother's womb. You were told, don't get pregnant the ZIKA virus will kill your baby. I guess that took the place of the DNC virus does the same thing through abortion.

And then we come to this year, 2020, and we are now in another Presidential Election year and we now have unveiled the CORVID-19 Corona Virus which is according to every liberal commentator "the fault of President Trump".

But all these Election year plagues are simply that. The Liberal Media trying to push Big Government is here to rescue you. Does not our Bible tells us that "***God is our shield and our protection.***"

So we see election year meddling again. The Liberal media pushing the people to lean on big government from the cradle to the grave. But this sort of news is not news, it is propaganda because there is nothing to worry about. But these diseases are a tell tale sign that man has been meddling in the government labs to bring on diseases, and once God takes his Holy Spirit from the earth along with His Bride, then watch out because there will be nothing to hold down that evil.

But as for now we are protected so we have nothing to worry about. Just make sure your family is under the token, and that the token is applied to your house. And use common sense health care techniques such as washing your hands often and don't touch your eyes and nose in public. And for you that have parents, please watch your children closer, and pay more attention when you are fellowshiping.

Now, let's just look at these so called Pandemics, to see how dangerous they really were.

Because each time they release one from the lab they want to liken it to the Spanish Influenza of 1918-1919, but all of these fall far short from that because back then there was only 2 .5 billion people on earth and over 1 billion were affected by it. Not infected but affected, because 40 million people died of that flu.

But the numbers associated with these so-called pandemics are so small that they should not even be called a pandemic. They fall so short of that Spanish Influenza pandemic that you cannot even consider them a pandemic at all in comparison. So - Just because the media hype and push it, you don't have to go along with their fear mongering.

And if you look up the symptoms of every one of these so-called election year pandemics, they are the same symptoms as the common cold or the annual flu bug and they have about the same death rate as the cold and flu as well.

But the one thing they all have in common is that they had their origins in China because of the ***filthy conditions*** where people buy their meat at live meat markets where they sell bats, rats, dogs and cats and many more kinds of animals, and they slaughter the animal right there on the street so the people can see for themselves that what they bought is what they get.

And why do they do that? Because the people do not trust each other, nor do they trust the source of their food. They do not trust the butcher, so they want to see the butcher, butcher the animal. If they were a Christian nation they would automatically be more trusting. So you see the dangers of this world going further and further away from Christ and His Word? Fear begets fear, and as Job said, *“The things that I feared most have come upon me.”*

So my answer to their custom of butchering at the meat market is to just sell the animal alive and let the people take it home and kill it themselves, or else kill it and let the people take home the dead animal and skin it and clean it in their own homes. Or do as western nations do. Do the killing at one location and instantly wrap the meat and freeze it, and sell in the stores.

But China has been the source for almost every pandemic except Ebola, and that comes from eating bats slaughtered in the same kind of meat markets in Africa. And it is also a very filthy custom.

In the election year of **2003-2004** the **SARS PANDEMIC** hit. It was not really a pandemic by the definition of the word, but that is what the world health Organization wants to call it. It seems they want to call every flu type symptom a pandemic to scare the public.

The World Health Organization (**WHO**) and the Center for Disease Control (**CDC**) use these pandemics to scare or hype-up the people in order to help the political LEFT every election cycle. So you say, *“Why the left?”* Because the left are big Government people, and that is what the pandemics are focused on to accomplish, - Big Government.

People look to big government to take care of their needs from cradle to the grave instead of walking with God and trusting Him. So they create reasons to bring fear on the people and try to get them look to big government to ease those fears.

SARS is an acronym for **S**evere **a**cute **r**espiratory **s**yndrome (S.A.R.S.) and it also began as usual in one of **China's** provinces, this one called “Guangdong”.

You will find that most of the so called pandemics come out of China, because the people eat bats, rats, dogs and cats. And in the country as well as in the cities the people will house their pigs along with chickens together under their houses. That is very unsanitary conditions throughout China and much of Asia.

From his sermon **Choosing of a bride 65-0429E P:75** He said, *“A few weeks ago I was in a vision, and I was standing upon a high place, and I was to see the preview of the church. And I noticed coming from my... I was standing more like this way, facing the west, and coming this way was the lovely bunch of women, real nice dressed, long hair fixed nice in the back, sleeves, and skirts down neatly, and they were all in a marching tune, like “Onward Christian soldiers marching as to war, with the cross of Jesus going on before.” And as they passed by, I stood, and there's something there, some Spirit, was God, and He said, **“There is the Bride.”** And I looked and my heart was happy. And she went around this way, and passed around behind me. After while when She come back this a-way, It said, **“Now, the modern church will come into preview.”** And here come the*

Asian church up. I never seen such a filthy bunch. Here come the other churches up of the different nations. They looked horrible.

Now, this is not a prejudiced statement brother Branham made here, but this is what **he saw** in a **Vision** from **God**. The bride from all over the world was dressed right and had long hair, in other words everything lined up with the Word. But when he saw the Asian church he said I have never seen such a filthy bunch. Now, you can make this into what you want, but the word filthy means filthy.

The word **filthy** according to our dictionary is an *adjective*, and means **foul**, and is characterized by, or having the nature of **filth**; it also means **disgustingly** or **completely dirty**. But can also mean **vile; vulgar; obscene: such as filthy language**. I think it is interesting that the word **filthy** means **foul**, because that is where most of these disgusting diseases start with which is **fowl**. Birds caged up with hogs, and therefore the viruses mutate from one specie to another and into the human population as well. And remember these viruses are germs, and all germs are demonic spirits, and when the demons were cast out of the man called Legion on the isle of **Gennesaret**, they immediately went into hogs. So going from hogs to humans is no big move on their part. In Biology class at the University we dissected fetal hogs because their heart was the most like a humans.

Now, just so you do not think br. Branham was prejudiced, lets continue reading. In pp. **76** he said, *"And I say this because I am duty bound to tell the truth before God. And when He said, **"Here comes the church of America now to be previewed,"** if I ever seen a bunch of devils, it was that. **Them women were stripped naked** with a old gray looking thing like a color of an elephant's hide, and they was holding it in front of them with no upper part on it at all, and they were doing this kind of stuff that these dances that these kids do out here, that twist and stuff and that kind of music going on. And when I seen Miss U.S.A. come up, I almost fainted. Now, **this is THUS SAITH THE LORD. If you believe me to be His servant, you believe me now.** I wouldn't say that for nothing in the world; there's not enough money in all the world to get me to say that if it wasn't true. And **when she come by, that was the filthiest looking thing I ever seen.** I thought, **"God, as hard as preachers and we brethren have labored to get You a Bride, and that's the best we could do."** She was twisting, holding this in front of her like one of these hula skirts of a thing, holding it in front of her parts, her lower parts like this, dancing and twisting like these kids do out here on these vulgar shows that they have, twisting. That was Miss Christianity of America.*

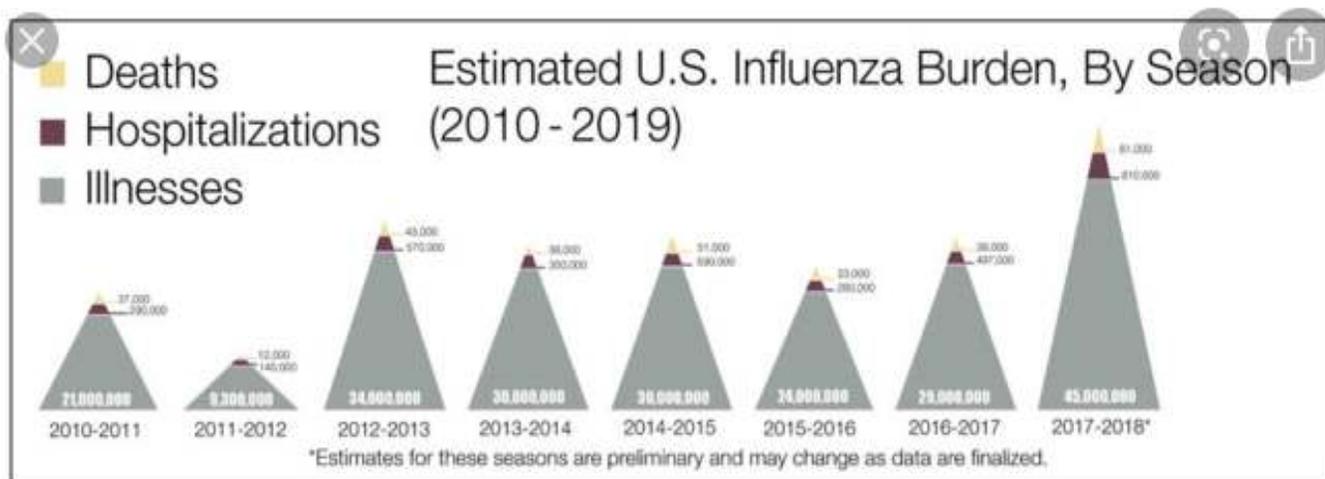

In **2008** in another Presidential election year it was the **AVIAN** flu pandemic. – it was a Highly pathogenic H5N1 virus that was isolated from a farmed goose located in the Guangdong Province, of **China**.

Notice, **both the SARS flu and the AVIAN flu** were both begun in the **Quangdong province** of **China**. But if you look at all the evidence concerning this flu, it has mostly been a disease in local fowl, and outside of fowl, it has only averaged 70 people who were infected per year since 2003. That is by no means a pandemic. Before the whooping cough vaccines were recommended for all infants, about **8,000 people** in the United States died

each year from whooping cough. Today, because of the vaccine, this number has dropped to fewer than 20 per year. But notice these flu so-called pandemics have a huge push politically all over the world. I think most of you can remember those pushes well.

Then in **2009-2010** not a Presidential election year but an important mid-term election year, the **Swine Flu (H1N1)** – was termed a pandemic. We have more cases of flu every year than what we had that year in this so called Swine Flu Pandemic.

Now, before we see what the actual Swine Flu cases were and deaths, lets compare first actual flu cases and deaths in the chart below. Here I want you to notice the amount of people who got it and the years they got it and the deaths that occurred. Why? Because this is the common flu. And I want you to compare the percent of deaths to those happening under these so called pandemics that the media goes hysterical covering.

Now, on the next page I want you to see just how few cases and deaths there were for the Swine Flu pandemic that was pushed down the throats of the American people by our liberal left wing globalist big Government pushing media.

WHO reported 403 cases in the USA and 1 death, but Wikipedia said it was about half that, 198 cases and no deaths. The country hit the hardest was Mexico as you will see in the page below. And I remember this well, because I met a doctor in Malawi the next year who had to flee for his life from Mexico because his clinic was curing people in days from the H1N1, and a Senator came to him and expressed his appreciation for what he was doing but said the government was sending law enforcement to not only shut him down but to arrest him, so he high tailed it out of there and went to Africa, and that is where I met him.

Human Swine Flu Cases and Deaths by Country

| Country | WHO Confirmed Cases ¹ | | Wikipedia Suspected Cases ² | |
|---------------------|----------------------------------|-----------|--|------------|
| | Cases | Deaths | Cases | Deaths |

1 Source: www.who.org, as of May 6, 2009 6:00 GMT.

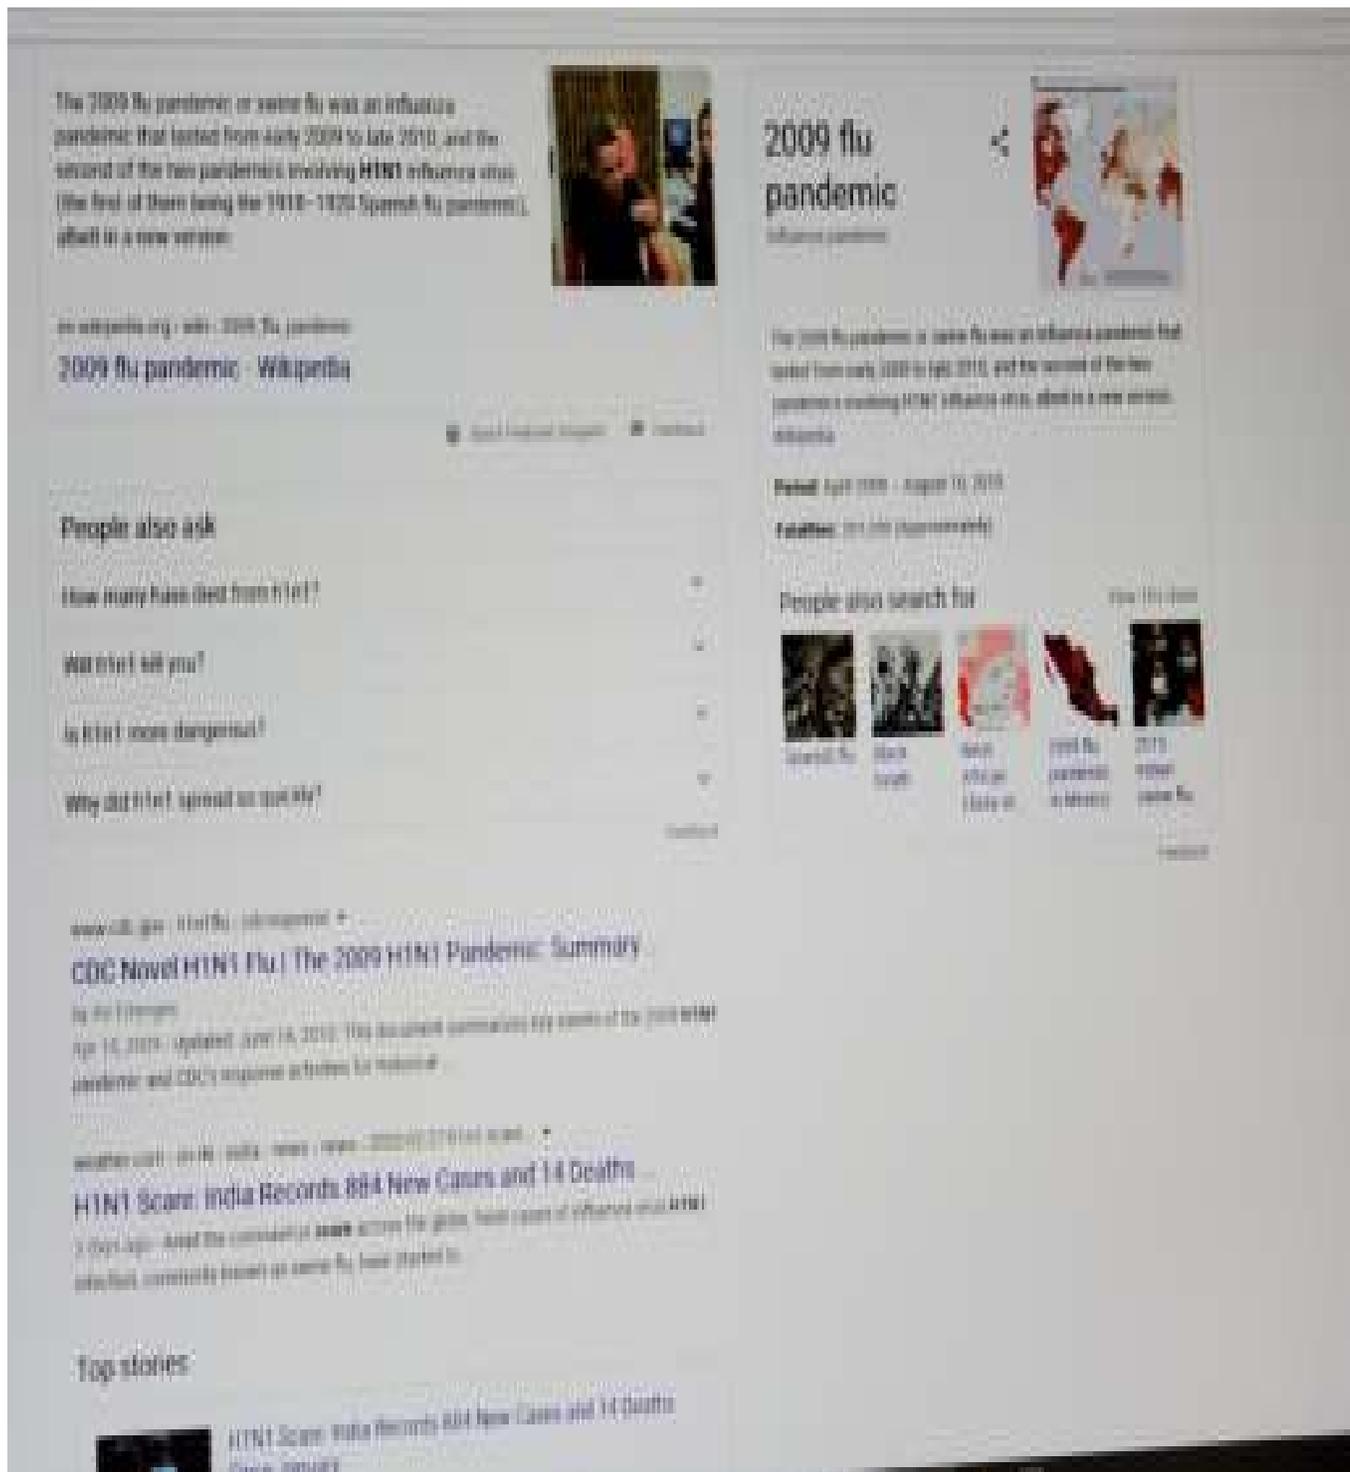

2 Source: www.wikipedia.com, as of May 6, 2009, 12:00 EST.

3 The Mexican government stopped reporting suspected cases and deaths on April 30, 2009.

So you see this was a farce heisted upon the people of the world to keep them looking to bug government to save them from that big bad virus called Swine Flu.

Next we will see below a map in the upper right corner of the page and that map shows the Swine flu and calls it a pandemic and how it went viral, (no pun intended) Notice that they call it the Swine Flu pandemic, which it was not.

Notice in the first paragraph it uses the word pandemic three times just to get the thought across, and they compare it with the Spanish Influenza pandemic of 1918. Why? To bring fear. That can be the only reason.

On the next page I have a map of the world and it shows just how few cases that were verified throughout the world. And let's face it, since the symptoms are the same as the flu, I am sure many people who just had the common flu were diagnosed with H1N1, because if you just take a swab test there is not way to know, you must have a blood test.

On this page we see the world map. Notice in this map the USA shows the most cases then Mexico and then Canada. So we see in the USA nearly 6,800 people got it but only 10 dies, and those ten they don't tell you if they were aged, and dying of pneumonia already or not. Only 10 died. There are more people who die each year from lightning strikes.

According to the (NOAA), the **National Oceanic Atmospheric Administration** over the last 20 years, the United States averaged **51 annual lightning strike fatalities**, placing it in the second position, just behind floods for deadly weather. In the US, between 9% and 10% of those struck die, with an **annual average of 25 deaths** in the 2010s decade (16 in 2017)

As you can see the total cases world-wide were only 13,398 and only 95 deaths yet the media went into hysterics covering it, and made you think this was the end of the world which it was not. Mexico was hit hardest.

Now contrast the 13,398 cases of H1N1 with the 240,000 incidents regarding **lightning** strikes that happen each year world-wide. The **Annual** fatality tolls vary greatly. One estimate is that the **annual global** death toll is **6,000**. On the other hand, according to National Geographic, **annually** about **2,000** people are killed **worldwide** by **lightning**. And yet this so called pandemic killed only **95** people. So your chances are better for getting hit by lightning than dying in a pandemic.

I hope you are getting what I am trying to get across. Every time the Angel of God appeared to man the first words out of his mouth were "**fear not**".

Psalms 37:11 *But the meek shall inherit the earth; and shall delight themselves in the abundance of peace.*

Again our God, our Heavenly Father told us in **Jeremiah 29:11** *For I know the thoughts that **I think toward you**, saith the LORD, **thoughts of peace**, and not of evil, to give you an expected end.*

Ok, now let's examine MERS which was an election virus of 2012. Since September 2012, WHO has been notified of **2,494** laboratory-confirmed cases of infection with MERS-CoV. Of those 25 hundred case there has been reported **858** MERS-CoV associated deaths have occurred since September 2012. This was reported in 2019. So over an 8 year period we saw 858 deaths, which means just over 100 per year world wide. Again there are 20 times more deaths each year from being struck by lightning.

So what are the odds of being struck by lightning? The **odds** of becoming a **lightning** victim in the U.S. in any one year is 1 in 700,000. The **odds of being struck** in your lifetime is **1 in 3,000**. **Lightning** can kill people (**3,696** deaths were recorded **in the U.S. between 1959 and 2003**) or cause cardiac arrest. That is an average of 84 a year for 44 years.

As for **EBOLA**? Ebola is not a USA disease to fear. There have only been 4 cases of people with Ebola in the USA ever, and those are people who were working over in Africa and who came home, and another 7 that were brought here by the OBAMA administration for care. 2 of them died once they got here. That's it. That is an 18 % chance of dying if you are infected and living in the USA. But the chance of contacting EBOLA here is 0.

It is an African disease because they eat bats, rats, snakes and other creepy things. And buy them alive at open markets like in China.

Now, that brings us down to 202 there has been 28, 616 cases of ebola from 2014 through 2016 of which 11,300 people died, and that is a very high percentage of people dying from that diseases. But you have to look at the type of care these people get. They have very little antibiotics in those areas of Africa, and most people either can't accord to see a doctor early on or they just don't have doctors out their in the jungle, so they lay down and do nothing, and die because that is all they can do.

Now, the scare in **2016** was the **ZIKA virus**. In the U.S., there were 62 **Zika** virus infections reported in 2015, then over 5,000 reported in 2016, and only 20 in 2019. Florida was the state with the highest number of reported **Zika** virus cases in 2016, with 1,115 Reported on Feb 20, 2020 Over **4,800** pregnancies in the US territories **had** a lab result showing confirmed or possible **Zika** from 2016-2018. That is about 1,600 per year. About 1 in 7 **babies had** health problems possibly caused by **Zika** reported, among **1,450 babies** at least one year old. Aug 7, 2018 That is around 200 babies over a three year period. That is health problems but not deadly. Usually patients recover but it does kill about 1 percent of victims. Because the birth defects are certainly deadly. When a baby has severe brain damage, it **can** die while still in the womb or at birth. ... Babies have died of other, unknown causes when the mother's been infected with **Zika**, therefore it is not determined how many actually died because of te Zika virus.

Finally we come to the (**COVID-19**) **CoronaVirus** of 2020, and that is where most people are interested to know.

A total of 72,314 COVID-19 cases, diagnosed through Feb 11 were used for the study. Of the 72,314 cases, 44,672 were classified as confirmed cases of **COVID-19** (62%; diagnosis based on positive **throat swab** samples), This is a very inaccurate test by the way. You could have flu and a swab test wouldn't tell the difference.

16,186 were suspected cases (diagnosis based on symptoms and exposures only so these could have been flu as well.)

10,567 as clinically diagnosed cases (from Hubei province only, diagnoses based on symptoms, including lung x-ray), and **889** as asymptomatic cases (diagnosis by positive test result but lacking typical symptoms).

So of the 72,314 cases Most were diagnosed in Hubei Province (75%) and of those 75% most reported Wuhan-related exposures (86%);, Wuhan resident or visitor or close contact with Wuhan resident or visitor," the authors said.

So a lot of speculation is going on and not very good scientific protocol as the taking of blood samples. Therefore a lot of conjecture is being made with very little scientific proof. But notice that of the 72,314 cases 75% were from the province or Wuhan, so the 2.3% death rate is a Chinese problem with their medical technology or lack of it.

Of the confirmed cases, 1,023 patients—all in critical condition—died from the virus, which results in a CFR of 2.3%. The CFR jumped considerably among older patients, to 14.8% in patients 80 and older, and 8.0% in patients ages 70 to 79. Among the critically ill, the CFR was 49.0%.

If you take the rest of the world, the death rate is less than 0.5%. so although this disease spreads faster than the common flu it is no any deadlier.

Less deadly but more transmissible than SARS, MERS

A total of 81% of cases in the *JAMA* study were classified as mild, meaning they did not result in pneumonia or resulted in only mild pneumonia. Fourteen percent of cases were severe (marked by difficulty breathing), and 5% were critical (respiratory failure, septic shock, and/or multiple organ dysfunction or failure).

In comparison to SARS (severe acute respiratory syndrome) and MERS (Middle East respiratory syndrome) coronaviruses, which were both identified in the past 20 years, COVID-19 is likely more highly transmissible but not as deadly, the researchers noted. (SARS had a CFR of 9.6%; MERS has a CFR of 34.4%.) And unlike SARS and MERS, hospital-based outbreaks do not seem to be hallmark of COVID-19 at this time.

As of February 29, according to the CDC in the United State there has been 22 people tested positive for COVID-19 out of 472 people tested. There has been 1 death in the USA of a man in his 50's who had health problems, and the **Coronavirus** just complicated those problems and he died, like many older people die of pneumonia laying in a hospital bed who are not there because of pneumonia, but the laying on their back brings on the illness.

So I do not see that this is any more to worry about than the common cold or the annual flu which kills far more people.

I got this information from the CDC yesterday. “The CDC estimates that **influenza** has resulted in between **9 million** and **45 million** illnesses, between **140,000** and **810,000** hospitalizations and between **12,000** to **61,000 deaths annually** since **2010**.”

Listen people, those numbers are amazingly hard to swallow. What do you mean between 9 million and 45 million illnesses, there’s a huge difference between those two numbers and if they cannot get a hold of the actual reasons, I don’t think they know what they are talking about. That is not science. That is baseball ball parking. That is fishing stories about the whopper that got away.

Between 140,000 and 810,000 again why such a diverse number? That means they are not sure. That means then there is no real scientific reporting going on.

Well, 140,000 we will say to the doctors, but we can say 810,000 to the people who don’t know any better. These are just guesses? And if they are just guesses then why should anyone pay any attention to anything they tell us.

Flu causes between **12 million** and **61 million** deaths? Flu? Come on, people. That’s a 40 million difference between the low number and the high number. You expect me to swallow that?

Those are numbers you would expect from a politicians speaking to two different groups of people, but not from a so-called professional Center for Disease Control. It just goes to show that they don’t even know what they’re talking about. Well, I am sure glad that we have one who did, and that one was backed up by “***Thus Saith the Lord***”.

So who are you going to trust. A CDC that can’t even make a scientifically accurate statement? Or “***Thus Saith the Lord***.” I know where I stand, “***as for me and my house we shall trust the Lord***.”

I think the president need to clean house in the CDC as well and get rid of all those politicians who call themselves doctors and scientists, and get some real genuine doctors in their who will tell the truth. Because what good is their advice if you can’t trust them to be honest.

God's provided way of healing 54-0719A P:42 Listen, did you know the Bible predicts that in the last days, that they'll be a germ warfare? That diseases will break out upon the people, and will fall on everyone without the baptism of the Holy Spirit? But with the Angel or who had charge over these plagues was given orders to touch no one on whom the mark was. Why, how much, kind of teachers have we got to be, brethren, to get the church in order to be in that condition? Immune. My arms are sore now, from where the doctors has punched needles to try to inoculate me from yellow fever and so forth. I told them I didn't need it. But they wouldn't listen to me. But I'll tell you what God's going to do. God's got a serum, and it's called the Holy Ghost. And when that serum goes in, it'll inoculate you. Hallehujah. *In the last days...*****

Let us pray.
