

Questions & Answers # 3

Bro. Lee Vayle - October 6, 1991

Shall we pray. Heavenly Father we honor Your Presence this morning, we realize that the same One Who was here in flesh two thousand years ago in back here again in the form of the Pillar of Fire doing the same thing, even churches recognize it, Catholic church, and no doubt others do too. But we recognize It more than they do by virtue of the fact that we have had the vindicated prophet, vindicated Word, Your Presence even proved the Pillar of fire by actual manifestation on photograph and we appreciate all this. And Lord, it is not by happenstance, or by some kind of a fluke that we read the Scripture this morning wherein Jesus picked up little children in His arms and blessed them, because we know that when He was here upon earth at Mount Transfiguration He literally put His arms around those three disciples and bore them up with Him. And we know the same thing is about happen in this day that You'll pick up Your little children of the Resurrection, and those who are a part of It by immortality going to the Tree of Life, will pick them up and take them up to the heavenly Bridegroom and the Marriage Supper of the Lamb where the Spirit that's amongst us even God Himself become incarnate to us, we crown him King of kings and Lord of lords.

We thank you Lord that that is true whether people believe it or not. Whether we have the depth of understanding in the reality in our own souls, we know it is true, because it's been manifested to be true. And what is true is true, and it's going to go on to the end where triumph of truth comes forth, and we trust being part of the truth we will triumph with it.

So Lord, we commend ourselves this morning and thank You for Your love and mercy. Teach us Lord, and may we apprehend the bread of life for which we are already apprehended in this hour in Jesus' Name we pray. Amen. You may be seated.

1. Now, we going to go back and perhaps we'll be able to review a little bit of the brother's questions were that he sent us. And I say again, he's a real fine brother, he studied and he knows where he's coming from. I am certainly sure that if he ever came over here we'd just love to have him in the pulpit and speak to us from his heart, because he's a man that's not afraid to look at things. And that's one thing that I told you long time ago I admired about Bro. Branham, he wasn't afraid to look at things you know. People get so narrow minded they're beaten down by their organization, their denomination, by their preachers, by their teachers, and they are put in this little narrow confinement, and they're afraid to look you know, I would be appalling to me if people in this Message were afraid to look. In other words they're not afraid to lose their own thinking. They're not afraid to expand their thinking and say, "Well hey, is this going the right way?"
2. I remember years ago there was a preacher asked me a question, and so he began giving me some of his understanding, "Do you think it's this way, that way?"

I said, "No," I said, "See if you follow it this way, see where it's going to go." And I showed him where it would go plumb off the Word, and Bro. Branham in the spirit must of caught that.

Because I remember years later he said, "Now Lee, I want to ask you a question."

I said, "Sure."

So he asked the question, and I forget what it was, I answered. *"Now hold it,"* he said, *"right there, see now if you believe in what you're saying, (he said,) watch where it goes right off the Scripture."*

Well you see, with this Message you can always go to the Scripture. A lot of people say, "Well the Bible can prove anything you wanted to prove." Hey look, that's true. But this is vindicated. There's a big difference if you've got money in the bank, or don't have money in the bank. You know you can see the '92's coming in now.

3. I remember years ago when I was just a young kid I'd go down and see the new Chevrolet. Now this is before the ...?... most of you were ever born even. So just listen, you're out of the picture, but listen anyway. That was the day when they had you know, what do they call that on the... 'knee action'. Ha! One or two remember 'knee action'. Anyway, they had this Chevrolet with the knee action, and they had a platform and they had this off center wheel. What do you call it? Concentric, the wheel would go foomp! Floomp. And it would make them... show you the knee action how the Chevrolet would go. So, you know, hoity-toity, just like you know, on a billiard table, just rolling down the avenue. And you'd say, "That's great, that's great, that's great," you know. Well you know, the thing is I'd go stand there and I'd just think, "Boy wouldn't it be nice if I had...it was only twelve hundred bucks I think in those days. Whoo, what twenty four thousand now? Yeah, that's a lot of difference. Of course I talking about a lot of difference in my age too. And so anyway, I'd stand there drooling over the car that I couldn't have. The other guys that would come along, they didn't drool, they just took the money out, laid it on the counter and drove off.

4. Well, that's what I'm talking about this Message. You don't have to drool about it, we are absolutely those with money in the bank. It's been vindicated, we have been given the food in due season. We have entered in to the Former-Rain which falls at the time of the Latter-Rain, and every Scripture we see fulfilled with this positive power of manifestation as Bro. Branham said so succinctly, he said, *"Why,"* he said, *"God interprets His Word by manifesting It, bringing It to pass."*

And you know, that's a pretty strong statement. But when you begin taking that statement that Bro. Branham made, and applying it to doctrine, and going to the Word, you can see serpent-seed, you can see Rapture, you can see every single thing in the Bible Bro. Branham taught, the events concerning and all. But of course, you know, there's no place in there for the Word. And you know, let's face it, they're never going to get It.

You know, everybody's like a teacher I had years ago, and he was an art teacher, and he was good. But he was stupid. He told us, he said, "Anybody can be an artist. Anybody can do art work." [Bro. Valye makes a rapid drawing kind of noise] ...like this you know. Even faster than you Brian. I don't think he was good as you though, in fact I know he wasn't. And he said, "Anybody could." Hey, no use...you could take a shot gun and blow my head off, I couldn't ever be an artist.

5. Well, a few months after that big mouth had said that, there's always big mouths around the country, even we have our problems, it came out by those who were expert, the real artists, you know, the guy's that got thirty, forty, fifty thousand bucks for their painting while they are still living, and that artist said, "You are born an artist, artist are not made."

And you know, I talked to a woman her name was Miss Shaw, she's a good friend of mine up in Canada. She lived in Lethbridge [Alberta] when I was there, and she had her paintings she was great with her water colors, and she had them hung in the London art gallery. And we talked about art, and she would show me pictures that were real as she put them on...not canvas now, because they're water colors a special paper that...maybe like a parchment or something she used. And she said, "Now Bro. Vayle, do you see that blush there?" And I would see what she was pointing at. And she said, "You know, if you're not an artist and you go out and you're going to paint the scenery, if you're not an artist you won't see it."

There was a certain something that she could see because of an innate quality. See? Well, it's the same with the Scripture, if you don't have It in here, that place in your heart for this Word. Now look, don't drive yourself crazy about it. If you haven't got it, you haven't got it. If your folks don't see It, your love ones don't see It, your old church doesn't see It, that's what Bro. Branham said, *"Don't go back to your old church and try to tell them anything."* So many people always want to go back and you know, kind of dig up the dirt again, all you're going to find a bunch of worms, and hey, I think it's almost time to quit fishing. Bro. Branham said, *"It's all fished out."* Well I don't know, you just get a can of worms and no fish, [Bro. Vayle chuckles] I don't know, I think it's better to just...

6. Anyway, before we get to these questions, and we will get to them, I want to...the folk that are getting this tape now won't have the preliminaries when we had a little dedication here. I know that some of you think I may sounded very stern this morning, but, and I am to a degree, but I love people and I want to see people helped.

Now let me tell you something that you would not know unless I told you, and this is where I'm coming from this morning. And I'm talking to young people and you're going to do what you want, you're going to do it anyway, because most of you got your minds made up and I'm sorry for you, I really am.

7. Bro. Branham and I were sitting and eating one day and there was a bunch of young girls in their teens over at a table, and he said, *"Lee, you know what I'd like to do if I could do it?"*

And I said, "What are you talking about Bro. Branham?"

He said, *"See those young girls over there? I'd like to be their buddy."* Now that's strange. He said, *"I'd like to go over there and buy them ice-cream sodas and talk with them, and warn them, and show them what's ahead of them. But (he said,) see Lee, if I did it they wouldn't understand and I'd be picked up and thrown in jail for it."*

And this is a long time ago he said that years before he died. And I'm going to be honest with you, I'm a very flakey kind of a guy, you know that by now. I don't see everything everybody sees it takes me a long time sometimes. And I thought at that time Bro. Branham I don't understand where you are coming from. But he was looking down the road at what lies today, and you know something, listen to me, you young people a prophet of God would of loved to talked to teen-agers, your age right today, and he didn't dare do it because of the law. Your own parents cannot talk to you today, because of the law. And you are wide open for all the guilt and

sin the devil can pile and you need help whether you know it or not. And people today don't seem to think they need help except out of somebody else's pocket, which means the government will raise taxes until there's nothing left. In sixty years of that kind of junk in Sweden they're finally turning back, and after seventy years in Russia they're turning back. And even [Alan] Greenspan [Chairman of the Federal Reserve] says that he believes capitalism is not only sound economics, but it's moral. But that's all people seem to want is some hand out, so they can be more and more indulgent in sin.

8. Now you listen to me, you're old enough to where you had better pay attention to the Word of God and godly parents, and though you may have to keep your hormones as they call them under, you had better do it, because one day it's going to be too late.

Now listen, there're marriages taken place in this church, I never married them, but I could be responsible for some, because I don't who I might marry **as though** I believe, I don't know if they believe or not. But I'm going to tell you, being unequally yoked is a very, very serious thing. And if you're a believer and you marry a person that wants to hold you down to prevent you from reading the Word or from praying or going to church, you are duty bound to divorce that person and never marry again.

If you marry coming out of this Message you cannot break those vows and then grab somebody else. So you see, I know you can look at me and say, "Well Lee, you're an old man." Now you're right, I'm a whole lot older than people think and I feel a whole lot older than I look too. You say, "Well now that you've lived your life and had your fling..." I didn't have much of a fling. I had one woman and that's all I ever had, and all that I ever wanted. I never frequented bar rooms, smoked, drank, tried anything else, but that doesn't make me a paragon of virtue. I could lie and cuss faster than a horse could trot. We've got some pretty fast trotting horses.

9. "In my imaginations was wicked all the day long." I wasn't a goodie, goodie any stretch of the imagination. I had my fights and everything else. My run ins. But the point is this, it doesn't matter what my past is, I never have claimed to live the Word of God, because no man ever lived the Word of God outside of Jesus Christ. If any man had ever lived Word of God we wouldn't need Him. That's right! If any man had ever lived the Word of God, or even today with the Holy Ghost can really live the Word of God, we wouldn't need Jesus. He wouldn't had to die, He wouldn't have to rise again as Intercessor and Mediator.

But you know, there's comes a time in your life when you understand more and more, and you walk more circumspectly, and by virtue of the fact of what you've been into you warn and admonish people, and the Bible tells us even elders must warn and admonish and help people.

So this morning when I talk about these things I want you to know, I'm only saying them because the Word of God says them. And don't take upon yourself a responsibility that you can't handle, and don't take and bite off more than you can chew, because you'll pay for it. And as you do there'll be people around you that will pay that price. Now I speak as a parent, I have paid plenty of prices for my kids, and yet I have not paid as much as some of you have paid and will pay likely, because a generation exploding with this... the power of the enemy, and the power of sin. For the church has turned on itself proving its immune system is completely out of whack. And lupus has gone into the church, until the churches are completely destroyed by the word which is antichrist.

So, I want to tell you this, and I put it on tape for special reason people can get it and understand. Some of these things what I've told you about Bro. Branham perhaps times goes on I'll tell you other things we have talked about privately.

10. Now, going back to this brother in Europe which I think is a fantastic brother, we read what he...asked the question a while back. We're just going over perhaps rapidly.

"Before we came on earth in a procreated body in which form were we? Were we in the form of thought, Elohim, or were we in the form of the Spirit?"

Well, the point of the matter is, Bro. Branham said that we were a part of God. He also said that we are attributes. He said we are genes. He also said concerning our soul, that our soul came from God, because a soul is the important thing, that's the part. He also said there's a gene in the soul, he called inner soul. There are many things that Bro. Branham said that definitely leads us to understand that we were a part of God.

Now, for instance let's look at the picture, he said attributes. Now what does the word 'attribute' mean? It means 'that which attributes'. Well, what do you tribute certain things to them? In other words, you attribute, you give it credit, you see it in this particular sense.

11. Let's say, now here's this little girl she's been bit by a dog, and this dog here looks just exactly just like collie dog which we know collie dogs are not biters. And so you say, "Oh what do tribute that dog biting that girl to?"

Well, the fellow says, "It's part wolf. It doesn't show but it's part wolf."

You see, what was in the wolf nature, what was there came out and bit. Now if we're attributes of God, then he's saying something came out and manifested. So therefore, if we're attributes we are that which attributes. In other words then, we were a part of that, even the very nature, the essentiality of Almighty God. Now, do you understand how it is then that the sheep hear the voice. There's no way you recognize a shepherd. He said, "The sheep don't recognize any voice but the voice of the shepherd." Why? Because he was there at the birthing. And from the birthing then on the voice.

Now, if you weren't sheep in the first place you never... hey, goatie, goatie, doggie, doggie, piggy, piggy, gone. What can you do? You can't expect the dog to ...?... bark, no you see, so you've got to realize... now the word 'gene'. Gene is the same thing. Gene's again are the same as attributes, because without that there would be nothing attributing to what's coming out here. I forget how many genes there are, I guess I could look down this book down here and find it, but, I always ...?... genes there are, and they're suppose to be... they always told what is it, twenty three chromosomes? Now they say a hundred thousand now is what they say now. I just read an article. That's why they call this genome is set up all around the world and they are feeding in to it from all around the world, everything, until... they figure they're going to figure every disease and everything. And Bro. Branham said, "*When they come right to it it's over.*"

12. Already the churches are saying, "He's here, it's over." They got the gnome set up, it's over. Whether g-nome or ge-nome, what is it? Gnome? Yeah. It's over. People still looking around. We're before the White Throne. "You don't believe that sonny?"

I'm not trying to hurt you. I'm just trying to say, "It hasn't sunk into your consciousness." That's right. It takes a while. See. Look it, the prophets prophesied beyond themselves. Preachers preach beyond themselves. You testify beyond yourself. It's only God who never testifies beyond Himself, because that is Himself. He's the Word. And He can back His Word up, because He and

His Word are One and the same. And we are admonished by James, that we and our word be one and the same, and we'll never be that way outside of the life of the Word that's in us. And it just seems to trickle through a little bit, a little bit, but as I said already today, hey look, if we had to live this Word, there isn't one of us going to make it. No way, because we're in the body of death. The body is dead already because of sin, and the root of sin was not taken out. The only way to get the root of sin out is for the body to die. I mean, dead, plumb dead. Bury it. I don't know where people get their crazy doctrine, they're Methodist. They said that Wesley taught the entire eradication as entirely sanctification. That's a lie, I never found anything by Wesley or anybody back in that day. The main scream out as Bro. Branham said was against antinomiansim, which was Calvinism gone to the extreme where they said, "Hey, you've got it made, you don't got it made, so who needs to be born again, forget it. You're going to be because you are."

And you know there's a lot of truth there. But, haw, haw, it's just enough truth to deceive you, the lie is in there. "You must be born again." And how are you born again? By the baptism with the Holy Ghost.

13. Okay, so all we're looking at attributes and genes called the soul etcetera. Sometimes it seems Bro. Branham says we were a thought. That's exactly right. He does say it at the beginning and that we came on earth directly from the thought to the flesh. No that isn't true. You see, from the thought to the Book. That is to the thought to the Word, making It explicit, making it lie in there, making to the point that the Word comes forth as Bro. Branham said, *"He mastered great, great grandmother, great, great grandfather, right way, way, way, way... back."* And he said, *"A virgin birth is nothing compared to an ordinary birth one of the elect of Almighty God."* No way, shape and form, *"because the birth of Jesus,"* he said, *"put in an egg and a sperm, put in a woman's womb, but you and me brought down, down, down, down..."* Six thousand solid years we're here. And there's the, what you might call the computer mind of God, the infinite mind of God, tracing that egg and that sperm down that life, down, down, down, down through that mixed lump. Why, virgin birth is nothing compared to that. See?

But, there had to be a natural election, so God put His Life in human bodies. See? And when you consider the male ejaculate in a life time, I forget, it said, it would go pass the sun and the moon everything else. All of that is sperm, most, a lot of it is sperm, billions and trillions and God knowing exactly which one. For years and years ago, they'd say the Dale Carnegie course, the old guys would bounce up on the platform pretending they're twenty years old. Anybody knew they're seventy. He'd act like, my God, walk up sedately with a cane when you're seventy, you know what I mean? They'd bounce up there like kids and they'd say, "Congratulations, you won the first race you ever ran."

14. They thought at that time that the first sperm that got to the egg was the one that impregnated. Hogwash! Sperm go over the top, sperm can't get in, and there's a predestinated one that gets exactly into that egg. See? People don't understand a lot of these things. That's the natural election and you're not here by chance. You look around and you say, "Well Bro. Vayle I believe from this and that." ...?...

You just keep your thoughts to yourself and don't express them. Because the minute you start expressing something that's when it goes into orbit. "By your words you're justified, by your words you're condemned." And every idle word, and every idle word you must give account for. Which means...an idle word means a sitting there idle. It doesn't work. So you've got to keep your mouth shut, because the only word that works is the Word of God. And if we're not

teaching the Word of God there's no way you can get help this morning. No. Because my word is not going to help and your word won't help. No way shape and form.

15. Like a Jesus said, "Speak to this mountain." Ha! Talk your head off to the mountain. Where, why? Because a grain... a faith that's the size of grain of a mustard seed can move that mountain. Faith is a revelation. So when you've got that revelation, that mountain moves. The same as Bro. Branham said. He said, *"I challenge you, if God told me tomorrow morning to raise Abraham Lincoln, (he also said,) George Washington, (so we can have a duet.) He said, "I'll go down to the cemetery, bring the armies of the world, shoot me down if I can't do it."*

When that man had 'Thus saith the Lord', there was no stopping it. And how are they going to stop us getting out of here when we got the same Word? We got the same revelation. You believe the Rapture don't you? Shout, Voice, Trumpet. You know what they mean don't you? You got the same revelation. He said, *"The Bride is waiting for the revelation of the Rapture."* And It came, everybody's going ump, ump, ump, you know. You know, Mortimer Snerd stuff.

God does not have Charlie McArthur's, or Mortimer Snerd's. [puppets use by ventriloquist Edgar Bergen] Ha! Do you believe for one minute that you could come from God and be a Mortimer Snerd? No way. If you're a true child of God, you've got enough brains to keep your mouth shut and listen, and think until it gets down in here and becomes real and starts coming forth. And Bro. Branham said, *"When it finally comes forth, it's going to be like every day natural living."* Did you ever see anybody flap around an fly off to the moon? We've got enough of that Pentecostal hogwash in this Message. ...?...

16. All right. He said here, sometime Bro. Branham seems to say that we were a thought. *"That's exactly right, at the beginning and that we came on the earth directly from the Thought to the flesh having bypassed the form of the Word, this is the reason why we should sin or that we would sin."* He doesn't mean we should sin ...?... if that's true. *"And have come back to the second stage that was missed, Logos or Spirit."* And Bro. Branham did say positively, *"A body is expressed and bypassed that theophonic form."* God knew that we would sin as Irenaeus said, and Bro. Branham quoted him on different occasions. He started first of all by saying, 'Deep Calleth to Deep'. In other words if there's something in here there had to be something out there.

Well, if a man is screaming for some help, for some salvation there must be something out there to answer to it. So therefore, the Great Creator made what was down here to respond back there. Well, if He was a Savior, He'd have to make us sinners.

"Oh I don't think that's fair."

What are you talking about? When the vindicated Word came forth and said, "You didn't even do it, you were tricked into it."

17. I'm going to tell you something. When you go a court of law and you find that somebody deliberately put another guy on the spot and wheedled him and wangled into a position whereby he would sin, they throw the case out of court and that's what God did. The devil wangled us into sin, and God threw the case out of court and put it all back on the devil. And the Seventh Day Adventist come along and say that's a escape-goat. Hogwash! The escape-goat was Jesus. The devil deserves what he got. A escape-goat is a guy that doesn't deserve what he...somebody puts on because he didn't do it. Why, when you're in this Message and don't even know language? How was that dirty crack wasn't it? I meant it to be. I meant it to be, I'm not pulling my punches for anything. I don't have a mean spirit about it, because the guy I have in my mind he has the

English language down even more pat than I do, because I've forgotten so much vocabulary that I once had I can't use it anymore. My mind...[pweet!] you know... but I don't mind to mind that way. My wife and I have fun that way. She can't remember and I always forget.

So all right, you bypass the form of Word or the Word formed body which is also called 'Spirit'. And that was in the plan of God. Because that particular form you did not have the manifestation, or the form that could in anyway do anything contrary to what God Himself is in His attitude and desires towards us. You just never could do it. Only Jesus could say, "I always please Him." Because He having had that form could come on down here and remember all things, and when you remember all things He just walked according to memory. See?

When Adam was in the first form, a spirit form, Bro. Branham in one place said, "*Adam was in the likeness of God.*" And he said, "*See God's Spirit.*" That's likeness. We'll talk about that in a little bit when we get further on.

18. Okay,

"Now as for us, we have to be formed in the image of the Word of the Logos, we bypass the theophony, the Logos Word from the thought we directly came flesh men to be tempted by sin. See Bro. Branham shows us we were a thought, and we will never be the Word unless we were a thought at the beginning, this proves God's predestination. Who is this Melchisedec? This is our Book of Life.

You see, he's right in Melchisedec which is where we get our major thoughts. And the reason we get our major thoughts in Melchisedec, because I've told you previously is on the grounds that Bro. Branham made many statements previous to 1963. But from 1958, especially 1960 to '63, but '58 to '65, seven solid years. But especially I say in '63 when the Seals were opened and the Thunders came forth, the mystery some of which were 'Marriage and Divorce', and 'Serpent Seed', and so on, which I cannot know that number seven Bro. Branham never taught us, so we just be guessing. But anyway he did mention some ...?... which was 'Marriage and Divorce' and such as that. And he also mentioned down the line in another place about what truly 'eternal security' was, what the true 'baptism with the Holy Ghost' was, and the 'Mystery of the Rapture', those things positively he declared to us.

19. So, what I'm saying is when you take the concluding Messages of Bro. Branham's life, from the opening of the Seals, the Seven Thunders, where every error was corrected and every single Word of God brought out for this hour and for us. See? Don't come to me with a message about the Jews. I'm not interested in Jesus coming to the Jews. I'm interested will he come to me and take me with Him? You say, "You're not nice." I am nice. You're nuts! [laughter] And you're sticking your nose in where it doesn't belong. What do you care what I'm going to eat for dinner. Unless you're just plain dumb, stupid curious. Well I can tell you, it's going to be like chicken with nice gravy on and some dumplings in there, providing we get home to eat them. Somebody may invite me out and I think their food sounds better than mine I'll go with them. [laughter] Save mine for tomorrow. See what I mean?

Hey, you've got to understand this is what got that German fellow all messed up. He said, "Well brother, this says over here in Zechariah. This is over here, this is over here." What does he care what It says. That's why he said, "Bro. Branham made fifty seven mistakes." He hasn't got a clue to how the Bible was written. Scribes totally called.

Bro. Branham stood right in the pulpit and he said, *"I was different from all the rest, because I could tell it exactly as I saw it."* And I saw him stand there and tell a man his dream.

Everybody gets all **hampered** up about Daniel, "He stood there and he told the man a dream."

I don't mean to be you know, smarting off here in the pulpit and being Mortimer Snerd or something, but the point is the truth. William Branham didn't just tell one man his dream. He told many men their dreams and said, *"Stop it, you've made a mistake."* Phew! Can't you see brother/sister where we're at? If this isn't God I don't know God from a ...?... I don't want to know. I'd be so confused I wouldn't know which way to turn. I'm confused enough already, because I can't get more thinking under control as much as I should, and my thinking is much, much more under control than a lot of people's are. They don't have a clue to the doctrine.

20. So all right. But in some other passes it seems that Bro. Branham shows that we were existing with Jesus in God's image in the form of the Word. That's right, it certainly seems that way. At the beginning we were in God's image the real...the veil and darkness prevent us from knowing that. Well, if you can't know it, you can't know it, just let it bypass, because if we bypass a certain body and thereby we're limited. In other words, what was actually in us and able to bring forth it was aborted due to a certain physical factor, or something that God was doing, then it's aborted. What if I'm born without my left hand? I'm aborted as far as that's concern, I can't use a left hand.

Now, let me give you an idea here, this could be as kooky as all get out, but you bear with me. Bro. Branham categorically said, *"That hypnotism was a trick of the mind and not the devil,"* I was just going to ask him that very question when he answered it for us the night before I could get to him. And he told about the man in the audience that tried to hypnotize him. And so the man smarted off and God came down and put him out of commission. I guess He crippled him. From that time on the guy was crippled, and he kept writing Bro. Branham to do something. And Bro. Branham said, *"I can't do a thing until you repent."*

21. Now hypnotism. They will regress you until the guy...now you know Ford the actor, what's his first name? Is it Glenn Ford? The guy out of Canada that rides horses. All right, as a child he was physic, or he knew things. Well anyway, he was regressed under hypnosis, and under hypnosis he could play the piano brilliantly. Under hypnosis he could speak in ancient Egyptian language and several more. Now, my point is this, if... now this is just a hypothetical thing I want you to just listen to me, and don't take it for any gospel truth, I'm just trying to show you something that maybe help you to understand where I'm coming from, where Bro. Branham could be coming from.

All right, now, how was this person Glenn Ford able to speak these languages if it were not by a supernatural power, it was not the devil but purely a trick of the mind? I'll tell you how, because within this stream of life and this little life that's in you and me is a microcosm of the entire universe and God Himself. Then would it be strange that under the proper condition that life that goes back six thousand years couldn't produce any language, see, that I through my life stream God knows where I came from except from Adam picked up in those six thousand years? See what I'm trying to tell you?

22. All right, then the same thing I'm talking about except under certain conditions you and I could never ever have what lay within us way back there, and it won't be hypnosis that does it, it's going to be the Resurrection that does it. For when you die you go to this theophonic form as

Bro. Branham called it. Now the word theophony is not true and it is true, because if we're a part of God and we go back to what we missed, then it is a theophony, because we are gods, we are lesser gods. Actually we're the children gods. Demi-gods, what you might say, but we're not God per se. And remember, the only begotten Son was One of a kind, and we were in Him. I don't understand all of that. But...

So, what we were back there we haven't any way of knowing and we don't even need to know. So forget it. Just be happy that you were back there doing what the Bible said you were doing. That's all. See, you weren't running around trying to follow Lucifer and get all messed up. You were up there, and we'll just keep reading anyway.

[Question:]

23. "Jesus said to His disciples that He was with them before the foundation of the world. Would this seem to go together with Job 38, when all the sons of God shouted for joy? He said, "Job where were you when they all came together and shouted for joy?"

And remember, at that time it said Satan appeared. And of course this goes into the place of fallen angels and all those things, but I don't know too much about it.

"Are we those sons of God a part of whom rebelled against God, a part of which that whole group, you know those sons, rebelled against God?"

Well, we certainly wouldn't... hey look, let's what we're looking at. We are not looking at people who were created. When you talk about angels they were created. We were not created, we were born, and what we were born from and come out of determines the kind of body that is commensurate to that particular life, because dog life never gives pig life. What they've done to pigs right now and what is the other thing they've combined it with and made the poor pigs are knuckling over and they're getting sick and everything else. They simply can't do anything with it. You see, always hybridization weakens and spoils and destroys it. See? You know, by the way also there's only supposed to be one type of wheat left in the world that is not hybridized? That's a darn hard wheat called 'camute' (?) came out of Egypt. Everything in this world is hybridized, or mutated by something, pesticide or something thrown on it. And we're all part serpent seed according to flesh, so my Lord, how far can we go into the things of God? Only by revelation.

24. Are these a part that are rebelled against God? Well now, you can call a son of God by creation, but we are different. So if we were there with all those guys standing around us and they weren't born of God, no way could they be born of God and fall, because that which is born of God cannot sin. See? Ump, ump, ump, ump. No, no, no. They know the difference, righteous and unrighteousness. Oh yes, they're the only ones that do know. The other people they call evil good, and good evil. They don't know, we know. See, that's true, we know, vindication. I don't **always** speak from any knowledge that I've got and any experience I got. Forget it.

If I went back to my experience I'd be like a kid just playing out in the nice warm water, nice puddle and a nice sun shining, who cares, let everything go by. And there could be a tornado coming up to destroy me, or a big ton of bricks going to fall on my head. Know, in other words I'm saying it's just... childishness is not what counts in just letting things drift. We have a vindicated Message.

25. Now, he said, "Are we those sons of God apart of whom rebelled against God? Were we in the form of the Pillar of Fire?"

No, only in the sense if the Pillar of Fire was there which we have no record of. We have no record of it. And we were in that, because God was in it. What we have the record of according to Bro. Branham is in the beginning. He said, *"Let us look over the balustrade of time, and we're looking down below and we see suddenly a Light begin to form."* And he said, *"As a child playing around his father's door, the Son of God, the Anointed One."*

All right, now listen, if you're looking at that, and there wasn't even an atom, there wasn't even a whisper of wind, there was nothing. No creation. Then what in the world did that Light form from? It could only form from God and thereby be a Son of God. And we came the same way exactly, but we bypassed the form. So in the thoughts of God to become a record. So that we in our due time as I said in the beginning, down, down, down, down, down, this one, this one, this one made it, made it, made it till down here. You were expressed in due season with the proper attributes in characteristics for this hour. And if you weren't made for this hour, you could not believe this Message period. Ha! And don't anybody ever tell you the chaff gets taken up to in the Rapture. Chaff does not get put into the garner. And the chaff is Pentecost. Now I'm not against them, God have pity on your soul. If you think I'm fighting, **remember**, or trying to pull a deal on, I've got nothing to do with it. I've never made the **cost** for this suit, it's a hundred percent wool. A sheep did it. I'm **heir** to what the sheep did. I've nothing to do with that, and the Word of Almighty God per se. I just hope it's got everything to do with me.

He said, "But it seems in this case in the form of the word we should know everything when we came on earth."

See, that's it, you don't. We're aborted to a good end, there's no way you could do it.

"But it seems in Adam had not the form of the spirit until he came on earth."

Bro. Branham...that isn't... All right. You look at the facts he made in His Own image in one place Bro. Branham categorically states that image, that it was God being Spirit, He has Adam in a spirit form which you know, male and female spirit was in there, and then He breathed in the breath of life and He put him in flesh. And Bro. Branham said, *"That was the Holy Ghost."* Then he also said, *"That Adam fell from the image."* He said many things I cannot put it all together. I just simply can't tell you. **[End of side one of tape]** ...human beings sons of Adam and they marry these daughters which were the Cain line, beautiful woman and so on.

26. All right, I think we've got into all of that. Now...and he talks about these people that have come down, now he says,

"So who are these sons of God? Gen 6:2, Bro. Branham thoroughly explains in Job I'm not sure, in Questions and Answers, Bro. Branham says, *"That these sons of God were supernatural beings created by God and it came down from heaven to earth, these spirits, those angels were intended to become human beings"* the prophet said.

Now, the point is this, "intended to become human beings." And what did he really mean about that if they were intended and never became? The only thing they could do is inhabit people. And how are they going to inhabit a son of God?"

Not going to do it. So you've got a separation here, and just keep them separate, that's all you want to do is just keep them separate. To have all the answers I don't.

"They must be stars cast out with Satan from the heaven on earth. We know that's true, they were cast down, they know adoration, but they are spirits who rebelled against God we know

that. This began in the heaven goes on the earth until judgment, we know that. But the other stars are sons of God who resisted Lucifer are the elect who came..."

27. Now you see, there's the thing that Bro. Branham left very much up in the air. And they are not Gen 6:2, because he explained it very thoroughly. That's where he said, *"The people in the moderate and the fundamental doctrines they say that these angels that fell, pressed themselves into human flesh."* And he said, *"Lee, (it's right on tape, he said,) that would make them creators. Absolutely impossible."* He said, *"What it is, it's merely those the sons of God, the Adamic line got all messed up with the serpent seed line."* Because the woman were beautiful and everything else, you know, and they had giants in the land in those days, men of renown, smart people until the very end of time. Smartest age in the world right today, and what are they? They are weak, they're literally senile on the things of God, they know nothing.

"Now, what you could look at here is when a child is born Bro. Branham says, *"The spirit comes in."* Now at that particular time could it be that the fallen angel go to serpent seed, and the true angel then which are like spirits that were intended to be now take on that form?"

I don't know! All I know is Bro. Branham said, *"The soul is the nature of the spirit giving it an atmosphere."*

28. Now listen, you cannot for one minute say the nature is the thing. The nature comes from the thing. And the soul being paramount, you cannot then say that the soul is a nebulous undefined thing called nature of the spirit, when you and I know jolly well that the spirit is allowed of God, given of God, but not of God. So then you'd make the soul subservient to the spirit. Hogwash! No way! The soul gives the nature to the spirit. Which simply means this, then it's not simply an aura. It means, look, if you don't have that Word in there, that place for the Word, and that life does not come to the Word your nature will never respond according to the Word of God, you'll have some other word or some other thing. That's why the two-soul doctrine is absolutely hooey when it comes to the way they teach it. Your old nature's got to die.

Bro. Branham equated nature and soul together because it is true, see, until you're born again, that which would emanate as from God could not because until you're born again you cannot receive revelation on that Word. You may think you can, but you can't, you get all messed up, because the Holy Spirit was absolutely to you that you might be know the Word. I hope you're following what I'm saying here.

29. So all right:

"The only way they could ever be is by inhabiting, and whether the good ones come into us as a spirit then respond and are happy, and the other ones are allowed to come in if possible."

I don't know, because I can't find where Bro. Branham became definitive.

"They must be the stars cast out and ...?... This began in heaven, but as for the others sons of God resisted Lucifer the elect and in different periods of time to be real sons of God."

No, I cannot see that, except as I've already said.

"There's a possibility I do not understand that Bro. Branham called them angels, all those angels who were cast out on the earth were intended to become human beings. The faithful angels led by Michael against the rebel angels led by Lucifer. (Well, we know that to be true.) So they were not in the form of thought, but they were already in the form of the Word Logos Spirit."

See, no, that cannot be right. Cannot be right, because Bro. Branham said different in 1965. And one of the major revelations was 'Who is this Melechisedec?' There's no way you can go back. Remember, your doctrine received its pure form. And remember, Melechisedec could not be revealed until adulthood and maturity. And could not be revealed until headship took control which would be at the end time right there. Not that it wasn't coming more and more into the church, but remember, full stature could not come till all came, and He is the Word. You've got to have a full revelation. That's why it takes a revelation of Him and those things which are in Him.

30. Okay:

"When Bro. Branham a soul or a body, heavenly body left his physical and that he saw redeemed beyond time and in particular Sharon Rose, he said, *"As I looked here comes thousand times thousands of young men."*

That doesn't mean millions and millions I don't believe, like he used the word thousand times thousands. It would be thousands, thousands, thousands coming. I know in one place he did say millions, it could of been. I don't know that he was using the absolute truth as to millions of people, or what he's saying like on the grounds of a man looking at them and putting a great figure on. I'm not trying to make Bro. Branham a liar or anything, I'm just saying I don't understand everything that is said. So I do know one thing, that when you talk a thousand thousand, you could say, thousands times thousands, it could be one thousand, another thousand, well that's thousand times thousand, if could be ten thousand people. It wouldn't be in a hundred million people; or whatever. That's how your times figure come from. What is two times one thousand? It's one thousand, one thousand ...?... So you see I'm not going into roots and things here and ...?... and just looking at it. I don't know, if ...?... millions that's wonderful. I believe at the end time there's going to be billions upon this earth that really will be part of the New Jerusalem and those outside of the New Jerusalem.

31. And he said,

"Their hair, there were white robes and hair hanging down to the waist, bare footed running right toward me. I thought now what is this, I bit my finger and said I'm not asleep exactly but I could feel."

"In other words, he was sensate. According to this passage it seems that Bro. Branham possessed the sense of touch whereas it was his soul, his heavenly body that had left his physical body."

Now, Bro. Branham made a statement concerning soul walking. I don't understand it. Soul walking is an ancient ...?... where your soul when you sleep moves out. Don't ask me. He never explained it, so I can't tell you. When you sleep does your soul leave your body? Perhaps it does. I don't know. If he said so then it does under certain conditions, I don't know. So the brother has a right to think this. I don't know. Because looking at you body is merely nothing, because remember your spirit animates, Bro. Branham said it's just jerking muscles and nerves until that spirit comes in, so his soul could be perfectly gone. But the soul remember is just a seed and got to go back to the body. So whatever, I can't say too much.

"According to this passage it seems Bro. Branham possessed the ...?... He saw physical body possesses the senses, but does the soul or heavenly body possess the same senses?"

Well, in my... when he's talking about heavenly body I do believe what he's talking about the fact over here Bro. Branham talked about in 2 Corinthians 5, and It says here,

- (1) ...we know that if our earthly house of this tabernacle were dissolved, we have a building of God, an house not made with hands, eternal in the heavens.
- (2) For in this we groan, earnestly desiring to be clothed upon with our house which is from heaven:
- (3) If so be that being clothed we shall not be found naked.

32. So he tells you right there when you leave here you're not disembodied you get to another body. Now, Bro. Branham said the word eternal meant no beginning. Then alright, then whatever, whatever formed that life proceeding from God designated now by Bro. Branham son of God, and in him God creating everything, because Bro. Branham brings that out, then it is absolutely true that if we have a part of God, we already have within us that which produces of itself that form which we should have. I said exactly right whether you've got it or not.

Now the point is this, that's very possible and that's what you go to. That's why Bro. Branham said, "*You've heard from your theophony.*" Comes by rebirth. In other words, what's he saying? Hey, you're getting to where you should be. You're getting lined up. Now, this is a deep philosophy, don't let it bug you, I don't know too much about it, can't follow too good I'm just talking the best I can talk, and the best I can do.

33. Now, let's go to 1 Cor 15:46, and look at the picture. Now what does Paul say over here? He says,

- (46) Howbeit that was not first which is spiritual, but that which is natural; and afterward that which is spiritual.
- (47) The first man is of the earth, earthy; the second man is the Lord from heaven.
- (48) As is the earthy, such are they also that are earthy: and as is the heavenly, such are they (are) also heavenly.
- (49) And as (we're going to) bear the image of the heavenly.

Now, above there though It tells you in 43,

- (43) It is sown in dishonour; it is raised in glory: it is sown in weakness; it is raised in power: (That's the earthly body and resurrection.)
- (44) It is sown a natural body; it is raised a spiritual body. There is a natural body, and there is a spiritual body.

Now, I don't believe that this...them necessary was talking of the spiritual body being your body positively that's in the resurrection. I believe in here it is possible to see what Bro. Branham took from 2 Corinthians the 5th chapter. Then when we leave here we go to that other, which is strictly spirit, because God is Spirit. And anything therefore coming from Him will be spirit, I don't care what form it takes. I mean you've just got to give yourself up on that one. You see?

34. Now here, for Bro. Branham... now ...?... concerning what Bro. Branham felt. Bro. Branham categorically said that there was a feeling of love as I understand it, ineffable love and glory there. But he said, "*When the women hugged the men there was no physical sensation,*" which is

there of course, which there must be there in human bodies, and of course we're talking about sexuality. And he said, *"It just wasn't there."*

Now remember, he said, *"They do not eat, and they do not drink."* They do not need to. And so they're very anxious to come back to this physical body glorified, because you see, the plan of God will be incomplete without it. God being the Resurrection He's got to raise somebody from the dead. See? Because He said, "I'm the Resurrection and the Life." And Jesus could only be what was in the Father. You and I can only be what's in Him, it's going to go back to what He wanted.

So, Bro. Branham often said, *"That the heavenly body will have the same appearance as the physical body, but will possess none of the outward senses we've got here on earth."* Now, if you're talking the heavenly body, which Bro. Branham called the theophony which we understand how...it was something that literally came from that Life that was there and therefore eternal. Certainly, it would have some of the things which we call 'sensation' and 'senses', but only in certain areas. Like he saw there where the dead departed are.

35. All right.

"What is the difference between three following bodies: the body of Elohim coming to Abraham in the form of a man?"

Well, Bro. Branham explained that. He just took some dust, a handful, blew into it, and he jumped in a body, and then jumped out of the body, the body went back to the dust.

"Jesus' body, Melchisedec's body who ate bread?"

Well, that's it. It was a human body. That just gives you a picture of the human body. The Bible tells you, don't care about the human body. Don't worry about that, which destroys the body. Destroys body and soul in hell. Then He said, "Don't labor for the things that are tomorrow, eat, drink and taste, touch, sense of smell, but (he said,) labor for those things that are from above and lay up treasures."

For you see what you're looking at here, when God just...whoosh to a handful of dust, and here's a human body, jumped in and then jumped out and go 'shump'. What's the big deal? See, if you want to make something out of it shows you're still thinking with carnal thinking. I ask you a question, and let's get this flat: how come that you and I don't get the baptism with the Holy Ghost before we're born? John the Baptist did and I'm just as good as he is. You can't answer it can you?

All right, how come the Bible said Peter himself said, "Repent be baptized everyone in the Name of the Lord Jesus Christ. You shall receive the gift of the Holy Ghost." [Acts 2:38] And there, down there in Corinth they received the Holy Ghost and were not baptized in water. You know God can mess you up so good, just leave you sitting there with your tongue hanging out like a boot, you know, the tongue of a boot. Only the tongue of a boot is smarter, knows how to shut up. See, you can't figure these things, just leave it. You don't even need to figure it, just let it be. Man I don't care two bits about it.

36. Now, the next thing is: "That Jesus' body of flesh came to a woman."

All right. Bro. Branham categorically said, *"Mary supplied nothing but the chemistry. She was an incubator."* She was more than incubator. She was a chemical factory that did not provide any life, but she provided the sustenance. So therefore Jesus in my books and the Bible

tells you it's different from your body and mine. Hebrews 2nd chapter says, "He took only a part of it." Didn't take it all, there's no way He could of taken it all and been the Son of God. No way he could he of gone as part serpent flesh. No way, no way, no way. No way.

So what is it here? It could be that He is even different from Adam, because He is that Lord from heaven. And remember in theology, **you in doctrine** you have what is known as the federal headship of Adam, the federal headship of Jesus. But what they miss out in the federal headship of Adam they think everybody came from Adam when everybody didn't. Everybody came from Eve, and even science knows that now. So there you are.

37. So okay.

"But these three bodies of flesh coming from the dust of the ground were destine to grow old for the earth is cursed."

Well, they were destined but you see, there's such a thing as predestination in what we know as destiny. In other words, in normal course you cannot go by normal course of nature, because God is above it. And though light may travel in a straight line God can bend it anytime He wants to bend it. Just like John the Baptist was born with the Holy Ghost, so you want to get angry you can get angry it wouldn't do you any good.

You say, "Well, that just proves it, I can't outguess God, I'm not the smartest I thought I was." And if God wants His ways He's going to get it. So it's far better to believe a vindicated prophet, but don't take it too far in the sense in what you don't understand. If we don't understand we leave it alone.

38. Now he said,

"For the earth is cursed, on the other hand our soul which is part of the Pillar of Fire, (part of what was in the Pillar of Fire, part of God,) is a heavenly body from that very point of life which is of God, it gets its own depository, (just like the egg and the sperm, just got its own body through Mary there,) it's got no age and can't grow old."

Well, that's true it never does, that's why it's eternal. Eternal as Almighty God is.

"Since God formed Adam through direct creation and all other men came by His attributes, we're supposed to be brought to life in this way without using women otherwise God would of made a mistake using another means then the first time to bring men to life."

Well, that's very true, but you see you've got to realize once more that Bro. Branham said, *"That Eve caused an interruption."* And the interruption is simply this as Bro. Branham says in 'Marriage and Divorce', *"God,"* he said, *"will create again not through sex. No, but He Himself will take the elements that were in our body, "* he said, *"the comic light, the potash and all these other things and bring them together by a Resurrection."*

So, ...?... what was stopped there in the interruption comes back finally, and there will be a few people standing here like there was Enoch and Elijah who will be translated by the very fact that Adam was supposed to go to the Tree of Life.

Oh yes, oh yes he was and ...?... at being interrupted, now proving God perfect Alpha, Omega, Heb 13:8, absolutely we're going to have a few people here at the end time.

39. "Before the fall I don't think animals were using sex to multiply. This way of doing is a consequence of Eve's sin, has God forbade human creatures to take of this knowledge would

of been in His will and animals used the way of multiplying? After the Millennium is there going to be any procreation concerning animals, insect, fish? Is there not going to be a certain number of animals created by God and that's all?"

Now, that's a question I don't know. As Bro. Branham said concerning whether there will be children in the Millennium or not he said, "*Sometimes it looks like it is, sometimes like it's not.*" But he said, "*If I ever find out I'll tell you.*" And he told me previous to that, he told me in May when he answered that question in August that because, "One shall build, another not inhabit. One shall sow, another not reap.[sounds like eat] Plant not reap." He said, "*There wouldn't be.*"

40. Now, concerning this question, again we want to look at the fact. Absolutely everything was there for procreation concerning the flesh. It was there. But remember, in the beginning the Bible distinctly says, "Let the earth bring forth. Let the earth bring forth. Let the water bring forth. Let the water bring forth."

And I'm going to tell you something, water and ground doesn't bring forth anything, it takes life to take the water and the ground to do it. So therefore they were already there in that particular form the same as the seeds were already there.

Now what does that mean? It simply means when the fall came then positively every single thing, because they had the appurtenances there already. Which is, Bro. Branham said concerning Adam and Eve, "*they would of come to it eventually.*" Then so would these of come to it eventually under the strict ordination of the Holy Ghost Himself.

41. "Now, what about the Millennium?"

Well, I simply believe in the Millennium God's going to call back Bro. Branham's horse and bunch of horses and no doubt there will be enough land mass because it's only one/sixth of the earth is...of the globe is land, five/sixth is water, so by the ...?... time who know what's all going to come back?

"And will there be procreation? (Well alright, let look at it this way,) could there be amongst the animals on the ground of trees are going to procreate, and the plants are going to procreate. Who said there wouldn't be?"

I don't know, I leave that all to God. I don't have the answer. I only know the Millennium is the place of further sanctification. That's where you'll find out 'be happy'. Yep! Be happy. And I'm very happy and hope you are too.

42. "Where are the glorified saints of the Old Testament?"

I haven't got a clue, but they're somewhere in the dimension. They're there in their glorified and they're eating, I bet you...oh man alive, eating without hernias, belching and every... you think one minute they're not having good food? You've got to be ridiculous. Just because it's in the dimension you can't even see the air unless there's so much smog in here, or I've eaten too much garlic...which I haven't, I'm just kidding, I threw that in for the fun of it. Hey, come on, there's lots of things you don't see. Hey, if I had a television set right now and plugged it in and we had ...?... on the ...?... you'd see what's coming in the room like Bro. Branham said.

43. "In the 'Future Home of the Heavenly Bridegroom', Bro. Branham speaks of the pyramid which is whose sides is twenty two hundred kilometers, fifteen hundred miles high, believe this since it's said by the prophet, but it's ...?... height."

Absolutely, and I think it's going to be terraced and contoured, absolutely fantastic. Bro. Branham even diagramed from Jeffersonville how it would fit on the North American continent. Right? Okay.

44. "Where are we going to be during the Millennium and after the earth explodes?"

I myself, as Bro. Branham made a statement something about being caught away. My own understanding, and I'm not saying Bro. Branham said this. I just put it this way: we're caught up to the Throne of God wherever that is and protected by Him while everything goes up in smoke, and comes down perfect. And, you know, we're going to be explosion proof anyway. I've often said, "One glorified man could turn this world upside down in fifteen minutes."

You know, people think what Gorbachev is doing is great, and I think it's great, I think he's a wonderful man for this hour and this age. I appreciate the fellow and I appreciate what's going on. But I want to tell you, one resurrected person could make Gorbachev look like...well nothing, you'd have to get a microscope and a mighty high powered one to do it to pick him up. He could detonate every bomb, he could drive anybody crazy. We could build kingdoms, shee, just wait for it. Ah, let her explode as long as long as we come back and... let him even come to the Millennium. You get ...?... to the Millennium, I ain't going to care two-bits from that point on.

45. All right. "What can we think of 1977, fourteen years later and of the state of the USSR. I thank God that I've got ...

All right, I only know this one thing that Bro. Branham said positively to us, "*Don't think anything of Communism.*" He said, "It is nothing." He said, "*Remember (he said,) antichrist is a religious person.*" And we're talking about a religious system which goes into politics worldwide, and he said, "*Don't you think anything of it, (he said,) leave it be, because there's nothing to it, it's a bluff and so on.*" And we found it is. But remember, he also said, "*America,*" his last vision was the world in grater, and he said, "*We've got a bomb from Russia with our name on it and so has the Vatican and America is going to get it.*"

For what does that **mean**? What do I think about the Soviet Union now? I'm going to tell you something, do you think for one minute those nations that have fragmented from the big boys that they are going to give back those nuclear war-heads? I've got a hunch they'll just put them out there somewhere, and when the right time comes, and the right guy wants to rise up like Saddam tried to do it and they nailed him down and he was so close to the bomb one more year, launches, everything. Why if those guys...if one person gets in power, anybody can die and be bumped off and a guy get in power and he can just at the right time just release those bombs... Hey, we've got bombs going to hit us, may God get us out of here. It's up to us in a limited sense of the word. You know, if we're not seed, hey, ...?... if we're not seed we're not going to come out of the ground for the Millennium, and we're not going to blossom into immortality if we're not seed. But if we are seed, nothing is going to stop us. Nothing can. Especially the Elect seed. And remember, the very Elect do not get deceived. And that's the thing this brother is looking at we look over here in America, these people run around deceiving people taking undue authority, say, "Follow me, watch me."

46. How in the world can I look at anybody, listen to anybody when I've been with that man? I could name you names where people thought, "Oh Lee Vayle served a prophet, wrote the books and everything else, literally licked his feet if he wanted. Oh I'll get Lee to follow me." And they found out it didn't work. One guy tried to get me and he didn't even believe what we believe.

And he said, "What did he say Bro. Vayle?" He said, "God doesn't smear His prophets across the road." He thought he's smart.

I said, "He fed them to the lions and they were dung on the ground. Don't talk to me." I've never to the bird since. If you think I'm tough with you here, don't ...?... on me Bro. Branham. I'm not a dentist, but I'll pull his teeth with a four by four. [laughter] I'm not a doctor, so I'll take out his tonsils with a six inch lead pipe. I'm just kidding. You know what I mean.

Hey look, if this isn't vindicated, this is not real. You tell what is? But you better produce, because I've seen what none of you have seen, and I'm before the White Throne telling you. You don't believe that like I believe it. I do. When I find day by day I believe it more and more.

Let's rise and be dismissed. Kind heavenly Father we want to tell You again how we appreciate and love You for your goodness and mercy to us, Your great grace Lord God, where if You've wooed us to Yourself. And we looking now through this glass that has been unveiled to us into the Word, see these wonderful mysteries which would absolutely destroy people of lesser birth, not that we think of ourselves are of any birth, but the birth that comes from You Lord. To see these things and be allowed to look into them and know from before the foundation of the world these great mysteries which Bro. Branham brought to us concerning predestination, election and all of these things that are so marvelous. And to believe them and be happy with them, whereas so many would be stumbled and they never seen what Paul said, "Concerning for this cause have I raised thee up that I might show My power in Me."

Oh no, they can't even take that. How can they take these other things? But Lord, we know that You've allowed by Your Spirit this understanding to be within us and where it is lacking oh God. And if we're presumptuous Father, forgive us that we may be not just a part of the Word, but completely in tuned with the Word and see that great day fast approaching Lord, the Resurrection and immortality which is already come upon us. For Bro. Branham said, "*We are in the Resurrection.*" We certainly are, there is no two ways about it. I mean this is just true, and Lord God, may it be so impressed upon us that we walk as men in the Resurrection.

As Bro. Branham said, little piece of paper his son Joe found in the desk, "*What manner of men we ought to be, how we ought to live, so as to meet our loves ones in the Resurrection.*" Knowing that this is the hour of the Resurrection, we're in It.

Now, let us see those loved ones, and of course we know those loved ones are absolutely those that are loved with You. We know that that's where the love goes, that's where it's all going more and more Lord, and how wonderful to walk in the Light as You're in the Light and have fellowship one with another the Blood of Jesus Christ, God's son cleansing us all and we in fellowship in tune with each other.

Help us Lord to continue and we give You the glory in Jesus' Name we pray. Amen.

'Take the Name of Jesus with you'.
